

Secure Remote Access Platform

**HIGH-SECURITY REMOTE ACCESS, DIAGNOSTICS,
AND MONITORING. UNLOCKED POTENTIAL.**

A Massive Leap Forward in Secure Remote Access

Red Lion delivers next-generation remote access solutions to meet the most intense, high-security demands of modern industrial applications. Red Lion's Secure Remote Access routers and software centralize equipment management, allowing you to quickly respond to and act on your most crucial data from anywhere. This ability to remotely access, monitor, and maintain diverse equipment helps lower operational costs and downtime while opening doors for new revenue streams only made possible by secure IIoT.

What's more, Red Lion's remote access routers offer plug-and-play simplicity for quick setup for low and high-volume deployments. Leaping ahead of the curve has never been so easy—or secure.

FLEXIBLE CAPABILITY

It's one thing to monitor your equipment remotely. It's another thing entirely to access it remotely and securely for diagnostics and maintenance. Red Lion's Secure Remote Access platform drives your industry 4.0 initiatives, allowing you to collect information on and visualize your assets in the cloud without the expense and complexity of an internal server.

Remotely update firmware, configure devices, and perform diagnostics and maintenance.

Access your equipment from anywhere using powerful native and web-based software.

Get started in under 2 minutes thanks to a carefully designed, hassle-free set-up process that makes even high-volume deployments quick and effortless.

YOUR FUTURE ISN'T JUST REMOTE. IT'S SECURE.

Risk of data loss or unauthorized access shouldn't keep you from realizing every benefit IIoT brings. With the Red Lion's Remote Access platform the power of remote access, monitoring, diagnostics, and maintenance meets unrivaled security.

Red Lion's Secure Remote Access routers and software centralize equipment management, allowing you to quickly respond to and act on your most crucial data from anywhere.

UNYIELDING SECURITY

Red Lion's secure remote access solutions have been designed from the ground up with an unyielding emphasis on security. This means you can focus on your business and bottom line instead of worrying about whether your data and assets are protected.

Instantly leverage built-in, easily configured security for stress-free remote access.

Centralized device management simplifies the complex challenge of keeping watch over deployed assets.

Set up and maintain strict, user-based access (PC and mobile) for only those who need it, protecting your equipment while still allowing remote capabilities.

Ensure your devices are always up to date with the latest firmware and patches.

RA70K Keyed Remote Access Router

An available on-device physical key switch allows organizations to enable or disable remote access to the remote access router ensuring site security.

RLACCESS AND RLCONNECT24 SOFTWARE

RLConnect24 software facilitates simple and secure remote access, data logging, alarms, and web-based visualization, while RLAccess software enables operators to perform maintenance and configure equipment as if they were plugged directly into the remote device.

RLCONNECT24 REMOTE SERVICE PORTAL PACKAGE:

- View active device connections
- Configure devices via remote access
- Visualize data
- Configure alarms
- Data logging

RLACCESS CLIENT SOFTWARE:

- Remote maintenance & secure connection via VPN
- Configure third-party devices

THE BENEFITS OF IIOT. THE SAFETY OF RED LION.

Risk of data loss or unauthorized access shouldn't keep you from realizing every benefit IIoT brings. With the Secure Remote Access platform, the power of remote access, monitoring, diagnostics, and maintenance finally meets unrivaled security. To learn how it can work harder for your application, get in touch for a confidential consultation.

OUR FOCUS: CONNECTING YOU TO YOUR DATA

At Red Lion, we are focused on giving you access to your most valuable asset: your industrial data. Red Lion products and solutions are engineered to remove the barriers to your industrial data in three critical ways:

Access

Our data access products provide secure scalable solutions for cloud connectivity, edge intelligence and asset management.

Connect

Our industrial Ethernet switches provide ease of use, security and reliability to meet IT/OT needs for dependable communication.

Visualize

Our industry-leading panel meters and operator panels allow you to acquire, manage, and interact with your data on-site or virtually.

Red Lion is focused on being THE Industrial Data Company™. We empower industrial organizations around the world to unlock the value of data by developing and manufacturing innovative products and solutions to access, connect and visualize their information. Red Lion's global manufacturing and support facilities serve customers in factory automation, alternative energy, oil and gas, power and utilities, transportation, water and wastewater industry segments. We provide scalable solutions for cloud connectivity, edge intelligence and asset management, industrial Ethernet switches and industry-leading panel meters and operator panels, to make it easy for companies to gain real-time data visibility that drives productivity. Red Lion is part of Spectris plc, the experts in providing insight through precision measurement. For more information, please visit www.redlion.net
