Additional Modifications

Allied Moulded continues to push the boundaries and has worked hard to be your source for fast, no-hassle modifications. With complete modification services, the need for inconvenient secondary handling of your enclosure is eliminated, saving you time and money. In addition to the Stocked Color Program, Allied Moulded offers a variety of additional modification services, including:

- Custom Holes & Cutouts
- Polycarbonate Viewing Windows
- EMI/RFI Shielding
- Custom Printing
- Specialized Hardware
- Custom Panels

For more information on enclosure modifications, or to utilize our modification services on your enclosure project, call or email our customer service department today!

SPECIALTY PRODUCTS &

MODIFICATIONS

Allied Moulded has worked hard to be your source for fast, no-hassle modifications. With complete modification services, the need for inconvenient secondary handling of your enclosure is eliminated, saving you time and money. Complete modification services include but are not limited to:

Holes and cutouts

Polycarbonate viewing windows

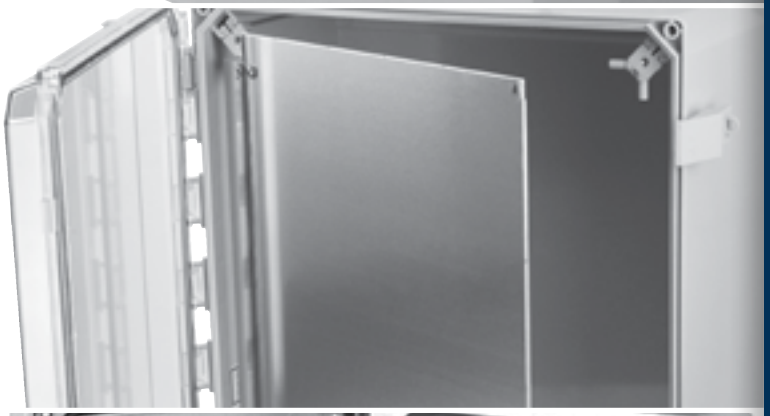
EMI/RFI shielding

Factory supplied custom printing

Molded-in color matching

Because of our dedication to providing you with outstanding service, we have the lowest volume requirements on custom work in the industry and guarantee quick delivery, often in less than three weeks from receipt of your order!

Scan to learn more



Computer-Controlled CNC

We incorporate computer controlled manufacturing equipment into our operation which assures that modifications such as specialty holes and cutouts are exact to your specifications each time you order.

Custom Holes & Cutouts

Custom holes and cutouts allow for conduit entry or device mounting to meet the needs of any application. Application cutouts include:

- Pushbuttons
- Cable entry
- HMI components
- Viewport / viewing windows

EMI/RFI Shielding

Electromagnetic waves generated by electronic devices may have a negative effect on other similar devices when used in close proximity to one another. These effects, called Electromagnetic Interference (EMI) and Radio Frequency Interference (RFI) may cause malfunctions in electronic devices.

EMI/RFI shielding provides high-level protection against electromagnetic and radio frequency interference.

Custom Printing

Custom printing is a practical, professional way to identify corporate identity or enclosure function. Print business or device names, identify important component controls, or display important logos. We simplify the process and will accommodate your application requirements.

Custom Color Matching

Modify your enclosures with custom colors, matched from a variety of specific Pantone or RAL numbers.

Custom Panels

Available custom metal work includes holes and cutouts on either back and hinged front panels.

Choosing the right enclosure material for your application

Allied Moulded offers a variety of fiberglass reinforced polyester (FRP) and polycarbonate enclosures to fit your application requirements. We understand the type of enclosure is just as important to you, as it is to the protection of your equipment. We often receive questions about the best enclosure material to use. Material selection depends on several factors, including application, environment, price, aesthetics, and enclosure size.

Application

The first thing to consider when purchasing an enclosure is the application location. Where will the enclosure be used? Whether the enclosure can be used indoors or outdoors can have a major impact on the type of enclosure that will best suit your needs. Fiberglass (FRP) enclosures are often used in outdoor applications due to excellent ratings in UV protection, aesthetic protection (from yellowing), and other factors, all while providing a cost-competitive alternative to stainless steel. Polycarbonate enclosures are a good alternative to carbon steel, offering a lightweight, impact-resistant solution for indoor and outdoor applications. Both enclosure options offer long-lasting protection to interior and exterior elements and provide the security required by the application.

Chemical & Corrosion Resistance

Enclosures may be required in applications where hazardous chemicals or materials are present. Both materials offer protection against corrosive agents, with fiberglass (FRP) performing better in environments with solvents and strong alkalies. Typically, fiberglass (FRP) remains a good alternative to stainless steel, while polycarbonate remains a good alternative to carbon steel in harsh environments. Examples of corrosive environments may be waste water treatment plants, oil refineries, or livestock farms. Other factors such as dirt, dust, oil, water, ice, and snow must also be taken into consideration. See the "Corrosion Resistance Guidelines" below for more detailed information. Visit www.alliedmoulded.com for a comprehensive corrosion resistance guide.

Price

Whether you're looking for just a few, or a few hundred enclosures, price is often a determining factor when considering which enclosure type to purchase. Fiberglass (FRP) enclosures often cost more than polycarbonate enclosures, but both offer intrinsic value when compared to steel enclosures over time. Enclosure users should consider all factors when deciding if the enclosure material and price point they choose will last in all expected conditions.

Aesthetics

We understand the way an enclosure looks is just as important as the way the enclosure performs. Engineers at Allied Moulded take pride in the development of aesthetically pleasing enclosures, while maintaining all required NEMA ratings. All fiberglass (FRP) and polycarbonate enclosures come in the standard RAL 7035 light gray color.

Sizing

The size of your enclosure is often important to your particular project, therefore sizing becomes a factor in the type of material to use. Allied Moulded polycarbonate enclosures are currently available up through an 20" size, thus if a larger enclosure is needed, a fiberglass (FRP), molded, or RTM enclosure material may be required.

See pages 12 and 13 for additional performance comparison of enclosure materials.

Corrosion Resistance Guidelines

NEMA Type 4X Enclosures

An enclosure is a housing constructed to provide a degree of protection from accidental contact with the enclosed equipment and external environmental conditions. Electrical enclosures are available in metal and nonmetal options.

Standardizing enclosure performance is accomplished by use of rating systems of various organizations (NEMA, UL, and IEC) identifying an enclosure's ability to resist external environmental influences. These ratings have distinct differences even though they are intended to provide information in order to make a safer and informed product choice.

MATERIALS

Fiberglass Reinforced Polyester (FRP) Enclosures

All FRP enclosures are listed under UL 50, UL 50E, and UL 508A standards. This type of enclosure is suitable for both indoor and outdoor use in corrosive environments and is resistant to UV degradation. Fiberglass (FRP) material shall meet UL 746C requirements with halogen-free and self-extinguishing characteristics.

Enclosures are constructed using a hot molded process using Allied Moulded's proprietary ULTRAGUARD® material formulation, with a minimum of 20% fiberglass by weight. Fiberglass reinforced polyester exhibits high impact resistance, a superior range of temperature limits, excellent dimensional stability, excellent electrical properties, and excellent moisture and overall chemical resistance.

A cold molded hand lay-up gel-coat fiberglasss process and/or resin transfer mold (RTM) process, may be used for larger cabinets, and has a high impact tolerance, with excellent overall strength.

Polycarbonate Enclosures

All polycarbonate enclosures are listed under UL 50, UL 50E and UL 508A standards. This type of enclosure is suitable for both indoor and outdoor use in corrosive environments and is resistant to UV degradation. Polycarbonate material shall meet UL 746C requirements with halogen-free and self-extinguishing characteristics.

Enclosure is constructed with an injection molded polycarbonate thermoplastic material. Polycarbonate material exhibits an acceptable UV rating, along with minimal shrinkage, and excellent stress rating.

ALLIED ADVANTAGES

- Any external metal parts shall be 316 stainless steel. NEMA Type 4X enclosures are fabricated and rated specifically for resistance to corrosive elements.
- Advantages of nonmetallic enclosures:

  (1) Unlike metals, fiberglass reinforced polyester (FRP) and polycarbonate are non-corrosive.

  (2) Enclosures are very similar, thus they require little maintenance.

  (3) Due to their light weight, nonmetallic enclosures can be very easily handled, installed and modified.

- Fiberglass reinforced polyester (FRP) and polycarbonate enclosures are the material of choice in applications where physical strength and excellent corrosion resistance is required.

CONTINUED ON PAGE 147

- Junction and Control enclosures may have either screw, hinged or latched covers. All cover screws and hardware; including hinges, latches and mounting feet are constructed of 316 stainless steel material. Gasket system shall be a Formed-In-Place (FIP) polyurethane for toughness and resistance to tear while maintaining a NEMA 4X and IP66 seal. All gaskets are seated in a molded channel and not glued or poured onto a flat cover surface.
- Cabinets and larger style enclosures are always provided with hinged doors. The closure systems on these cabinets will either be a three point latching system or stainless steel twist-turn type latches. Door closure systems using a single external handle will also have three internal latch points. This handle may be key lockable or pad lockable. When using the alternative closure method of external stainless steel twist turn latches, no more than four latches shall be required to maintain NEMA Type 4X integrity. At least one latch must have a padlock provision.

316 Stainless Steel Hardware

316 Stainless Steel Hardware Standard for all Enclosures

Allied Moulded understands that not all stainless steel hardware is created equally. To endure harsh environments, a robust nonmetallic enclosure must also utilize hardware that exhibits the same corrosion-resistant properties. Many enclosure manufacturers have standardized the use of 300 series stainless steel hardware in their products, with 304 stainless steel being the most common. Allied Moulded has made the use of 316 stainless steel standard for all of its enclosure products' external hardware.

What is Stainless Steel?

According to the Specialty Steel Industry of North America (SSINA)[1], the term stainless steel applies to a group of iron based alloys containing a minimum 10.5% chromium. Other elements are added to the alloys to make different grades of stainless steel. There are many different grades that have varying corrosion resistance and other properties based on the ratio of elements used in the alloy. There are more than 50 grades of stainless steel.

Corrosion Resistant Properties

The science behind the corrosion resistant properties of the various grades of stainless steel lies in the mixture and ratios of the different elements contained in the alloys. The chromium contained in the mixture alters the oxidation process that would make raw iron rust. Instead, the chromium forms a protective layer on the surface that resists oxidation. The added nickel (Grade 304 and 316) enhances this resistance. Alloys are made even stronger by the addition of molybdenum (Grade 316), which are used in applications where acetic, sulfuric and sulfurous acids may be present.

Grade 304

Grade 304 is considered the basic stainless steel alloy. It is made up of 10% chromium and 8% nickel. As previously mentioned, it is the most common of the 300 series alloys. It has good corrosion resistance properties in most applications.

Grade 316

Grade 316 also contains chromium (18%) and nickel (10%); however, it also contains at least 2% molybdenum. The addition of this element significantly increases its pitting and corrosion resistance properties, specifically with regard to chloride (salt) pollutants, which are found in coastal areas and de-icing applications, and potash which is found in agricultural fertilizer and chemical manufacturing. It also has wide application in water/waste water treatment plants, pulp and paper mills, and other environments with aggressive corrosive agents.

FIP Gasket System

Allied Moulded's automated Formed-In-Place (FIP) polyurethane gasket system was designed to replace cord gaskets and is applied directly to the enclosure cover in a continuous channel. The new gasket provides protection from outdoor elements such as dirt, dust, oil, and water while providing a reliable seal from cover to base. The gasket will adhere to a variety of surfaces and cover finishes, allowing for a better seal and overall protection for your most critical electrical components.

RoHS COMPLIANT c UL us CE

EMI/RFI Specifications

- Standards governing electromagnetic compatibility commonly refer to EMI/RFI, or electromagnetic interference/radio frequency interference.
- Applicable standards used are based on MIL-STD-285 to perform attenuation measurements of EMI/RFI shielded enclosures. The applicable North American standards for the overall assembly, including internal electronics, can vary with the application in which the product is intended to be installed.
- For a complete list of applicable standards, your local testing authority (for example, UL, CSA) should be contacted.
- Such interference is caused by stray voltages and/or currents coupling between electronic systems creating undesirable effects. These undesirable effects can vary between a brief annoyance, to more serious situations, such as a phone interfering with the controls of a machine tool. With the increased emphasis on electronic technology, electromagnetic interference/radio frequency interference is a growing concern.
- Electromagnetic pulses (EMPS) may adversely affect electronic and other control systems. These disturbances may cause erratic operation, and either component failure or a reduction in component life.
- Allied Moulded can provide custom EMI/RFI shielded enclosures to meet many applications. Requests for EMI/RFI shielded enclosures should be directed to the Allied Moulded customer support group.

Properties

Shielding Material.....Copper Conductive Coating
Attenuation ..... 75 dB

Sheet Resistance <.025 Ohms/Square @ 2 Mil Thick

The probes of an ohmmeter shall be placed on any area of the surface and the measured resistance shall not exceed .025 ohms.

Attenuation 75 dB

A measure of the shielding effectiveness shall be confirmed by an EMI/RFI test. Actual test data confirmed an average attenuation of 75 dB over the frequency range from .01 to 1000 Mhz.

MIL.SPEC>285

MIL.SPEC>285 is used as a general EMI/RFI test guide. A transmitting antenna is placed inside the enclosure and a receiving antenna is positioned outside. The attenuation is the dB difference between the enclosure OPEN and CLOSE FR power levels.

Weathering/UV Information

Allied Moulded's FRP enclosures are hot molded using Allied Moulded's proprietary ULTRAGUARD® material formulation All products of this type, regardless of manufacturer, are exposed to erosion when used outdoors. Due to the combined effects of environmental elements such as rain, wind and UV rays, the polyester matrix is only superficially eroded and as glass fibers become apparent, the degree of the erosion is microscopic. Please note that this superficial erosion has no effect on the physical characteristics of the enclosure whether electrical, mechanical or chemical. The slight erosion can be avoided if a surface coating such as varnish is applied.

Allied Moulded's fiberglass enclosures have been successfully used outdoors and tests on field samples support above results. (F1 rated material—suitable for outdoor use)

Painting Information

Good surface preparation is critical in painting fiberglass enclosures, since the mold release agents must be removed before painting. It is recommend that the surface be roughed by lightly rubbing with sandpaper before applying the proper primer. Degreasing the surface with an organic solvent such as alcohol or other domestic cleaning agent is required. The surface must be clean and dry prior to applying the appropriate primer and top coat (polyurethane or epoxy).

*Should you feel the need to paint polycarbonate enclosures, please check for compatability as polycarbonate material can be attacked by industrial solvents.

Allied Moulded has the capabilities to custom mold color matches specific to your requirements.

Heat Dissipation

Information available upon request.

Reduce Arc Flash Safety Hazards

What is Arc Flash?

Arc flash explosion is often referred to as a flash of electrical current leaving its intended path, traveling from one conductor to another. Arc flash can be caused by dust, corrosion, faulty installation, condensation, and many other factors. Blast pressures can reach upwards of 2,000 lbs. / sq. ft, reach sounds of up to 140 dB, and high temperatures of up to 35,000 degrees F.

What are we doing to help?

Allied Moulded wants to ensure the safe and proper use of encosures, and to reduce the risk and eliminate damages caused by arc flash. Our engineers developed accessories to meet these requirements when an enclosure must be accessed for maintenance or monitoring. Often, enclosures are opened to check equipment, read gauges, or perform preventive maintenance. The use of Allied Moulded's HMI Cover Kits and Inspection Windows reduces the risk of arc flash. The use of these products allows access to components without opening the enclosure.

CSA Ratings

www.csagroup.org

The CSA Group is recognized and accredited in the U.S. by the U.S. Occupational Safety and Health Administration (OSHA), which lists them as a Nationally Recognized Testing Laboratory (NRTL), enabling tests on products against the U.S. standards written or administered by organizations including the American National Standards Institute (ANSI), Underwriters Laboratories (UL), CSA Group (CSA), NSF International (NSF) and other organizations. The CSA mark shows your products have been certified by an accredited third party lab and have met applicable standards as required by North American law.

National Fire Protection Association (NFPA)

www.nfpa.org

NFPA is a global, nonprofit organization devoted to eliminating death, injury, property and economic loss due to fire, electrical and related hazards. The association delivers information and knowledge through more than 300 consensus codes and standards, research, training, education, outreach and advocacy; and by partnering with others who share an interest in furthering the NFPA mission.

National Association of Electrical Distrubutors (NAED)

www.naed.org

The National Association of Electrical Distributors (NAED) is the voice of the electrical distrubutor. They provide members with the best tools, information and assistance to help them thrive and improve the electrical distrubution channel.

IEC Ratings

www.iec.ch

The international Electrotechnical Commission (IEC) standards organization prepares and publishes International Standards for all electrical, electronic and related technologies. IEC standards cover a vast range of technologies from power generation, transmission and distribution to home applicances and office equipment, semiconductors, fibre optics, batteries, solar energy, nanotechnology and marine energy as well as many others.

RoHS

www.rohsguide.com

Restriction of Hazardous Substances (RoHS), also known as Directive 2002/95/EC, originated in the European Union and restricts the use of specific hazardous materials found in electrical and electronic products.

NEMA Ratings

www.nema.org

The National Electrical Manufacturers Association (NEMA) defines standards for various grades of electrical enclosures typically used in industrial applications. Each is rated to protect against personal access to hazardous parts, and additional type-dependent designated environmental conditions. A typical NEMA rated enclosure may be rated to protect from hazards such as water, dirt, dust, oil, or chemicals, and may be rated for indoor or outdoor applications.

UL Ratings

www.ul.com

UL certifies, validates, tests, inspects, audits, advises, and trains. UL provides the knowledge and expertise to help customers navigate growing complexities across the supply chain from compliance and regulatory issues to trade challenges and market access. In this way, UL facilitates global trade and delivers peace of mind.

UL's Online Certifications Directory

You can use the UL Online Certification Directory to:

- Verify a UL Listing, Classification, or Recognition
- Verify a UL Listed product use
- Verify a UL Recognized component use
- Verify a product safety standard

UL Certified Test Lab

Underwriters Laboratories® (UL) partners with manufacturers to provide safe products to consumers through UL testing, certification and follow-up audits. UL's Data Acceptance Program (DAP) provides a means for UL to accept externally generated test data in support of UL Mark certification. Product investigations by UL typically involve testing of product samples. While UL maintains extensive test facilities, customers can also utilize their own or third-party facilities for product testing via UL's DAP.

Participating test facilities are required to have the appropriate physical resources, equipment and qualified personnel needed to conduct testing, equivalent to what would be used in UL's own laboratories for the same testing. UL offers five differen ttypes of data acceptance programs. Allied Moulded Products, Inc. is certified through the Client Test Data Program (CTDP).

After a data acceptance program is established, UL will reassess a test laboratory annually. All data submitted is thoroughly reviewed and audited by UL before being used for certification.

Enclosure Ratings

In order to assist in the selection of an enclosure, rating classifications have been established by the National Electrical Manufacturers Association (NEMA). These ratings identify the ability of the enclosure to provide a degree of protection against incidental contact with the enclosed equipment and protection to the enclosed equipment from environmental elements such as dirt, dust, water and other corrosive agents. Underwriters Laboratories (UL) are a widely recognized testing organization that perform enclosure product testing to these standards and provide regular follow up service to ensure that manufacturers conform to established product and manufacturing specifications.

These ratings, however, are intended to be used only as a guide. To ensure a proper choice, it is recommended that an assessment of the application and environment be conducted before product selection.

ENCLOSURE RATINGS	
Enclosure Rating	
NEMA Type 1	Indoor use to provide a degree of protection against falling dirt.
NEMA Type 2	Indoor use to provide a degree of protection against limited amounts of falling water and dirt.
NEMA Type 3	Indoor or outdoor use to provide a degree of protection against falling dirt, rain, sleet, snow and wind-blown dust; and that will be undamaged by the external formation of ice on the enclosure.
NEMA Type 3R	Indoor or outdoor use to provide a degree of protection against falling dirt, rain, sleet and snow; and that will be undamaged by the external formation of ice on the enclosure.
NEMA Type 4	Indoor or outdoor use to provide a degree of protection against falling dirt, rain, sleet, snow, windblown dust, splashing water, hose-directed water; and that will be undamaged by the external formation of ice on the enclosure.
NEMA Type 4X	Indoor or outdoor use to provide a degree of protection against falling dirt, rain, sleet, snow, windblown dust, splashing water, hose-directed water and corrosion; and that will be undamaged by the external formation of ice on the enclosure.
NEMA Type 6P	Indoor or outdoor use primarily to provide a degree of protection against the entry of water during occasional temporary submersion at a limited depth.
NEMA Type 12	Indoor use to provide a degree of protection against falling dirt; circulating dust, lint, fibers and flyings; and dripping and light splashing of liquids.
NEMA Type 13	Indoor use to provide a degree of protection against falling dirt; circulating dust, lint, fibers and flyings; and spraying and seepage of water, oil and non-corrosive coolants.

Conformance To Industry Standards

Industrial enclosures manufactured by Allied Moulded Products and bearing the UL labels have been tested and certified to the following standards:

UL 50..... Enclosures For Electrical Equipment
UL 50E ..... Enclosures For Electrical Equipment, Environmental Considerations
UL 508A..... Industrial Control Panels
UL 746C..... Polymeric Materials – Use In electrical Equipment Evaluations
CAN..... Special Purpose Enclosures

Allied Moulded Products enclosures series AMU, AM, AMP and AM-R maximum size 30 x 24 x 10 are certified:

- UL Types 1, 2, 3, 3R, 4, 4X, 12, and 13
- NEMA Types 1, 2, 3, 3R, 4, 4X, 12 and 13

AMP, AM and AM-R JIC flat and raised cover models sizes 14" x 12" x 6" and smaller (excluding AM743 and AM943) and all AMU models utilizing covers secured with four mounting screws (excluding window covers) are UL listed Type 6P.

Allied Moulded Products enclosures series AM sizes 36 x 30 x 12 and larger are certified:

- UL Types 1, 4, and 4X
- NEMA Types 1, 4, and 4X

AM, AMP and AMU series meet IEC60529 Type IP66. Models rated NEMA 6P meet IEC60529 Type IP68 submersible up to 24 hours at a depth of 6 feet (1.8meters)

International Standards IP Protection Classification Data

The first digit character represents the degree of protection against a person's contact with live parts and the protection of the equipment against the ingress of solid foreign bodies. The second digit represents the degree of protection against the ingress of liquids. Both of these values are represented in ascending value with the larger number equaling the greatest protection.

FIRST DIGIT	
IP	**Test**
0	No protection
1	Protection against solid bodies larger than 50mm (for example accidentally touching with the hand)
2	Protection against solid bodies larger than 12mm (for example a finger)
3	Protection against solid bodies larger than 2.5mm (tools, wires)
4	Protection against solid bodies larger than 1mm (tools, wires)
5	Protection against dust (no harmful deposits)
6	Complete protection against dust

SECOND DIGIT	
IP	**Test**
0	No protection
1	Protection against vertical water drops and condensation
2	Protection against water drops up to 15° from the vertical
3	Protection against rain up to 80° from the vertical
4	Protected against water splashing from a hose from all directions
5	Protected against water sprayed from a hose in all directions
6	Protected against powerful water jets
7	Protected against the effects of immersion
8	Protected against the effects of prolonged immersion under pressure

General Enclosure Specifying Guidelines

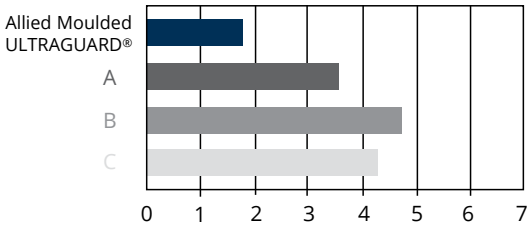
ULTRAGUARD® is Allied Moulded's proprietary fiberglass reinforced polyester (FRP) material formulation. Our **Materials Research and Development** laboratory successfully optimized ingredients to create a formulation with the ability to resist the effects of UV degradation. The formulation was developed through the effective use of UV absorbers that provide protection by physically absorbing light in specific ranges of wavelengths, HALS (Hindered Amine Light Stabilizers), and antioxidants. Together, all three classes of stabilizers provide specific protection to modes of failure associated with outdoor exposure.

ULTRAGUARD® Versus The Competition

Allied Moulded's ULTRAGUARD formulation outperformed materials used by three leading fiberglass enclosure manufacturers. The following four key areas were benchmarked, with ULTRAGUARD easily coming out on top:

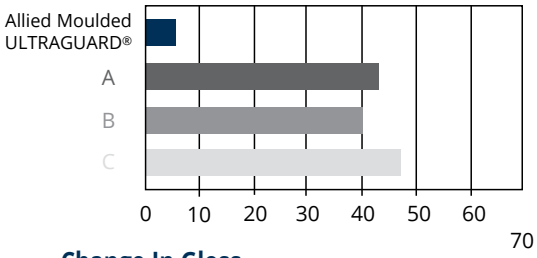
Yellowing



Yellowing

- Delta b change from original
- 48-60% improvement over leading competitive enclosure manufacturers

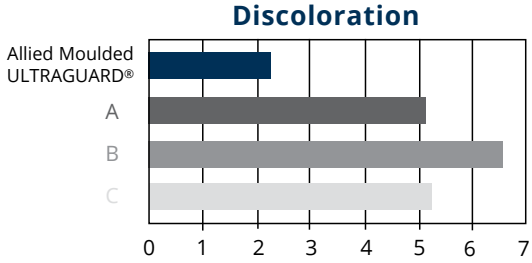
Change in Gloss



Change In Gloss

- Percent (%) change from original
- 76-80% improvement over leading competitive enclosure manufacturers

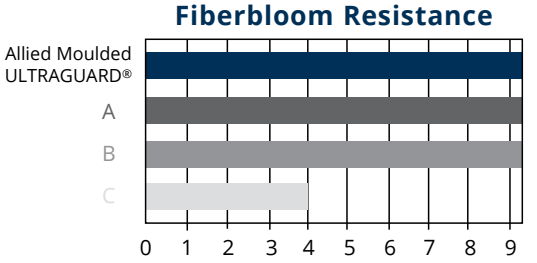
Discoloration



Discoloration

- Delta E change from original
- 56-68% improvement over leading competitive enclosure manufacturers

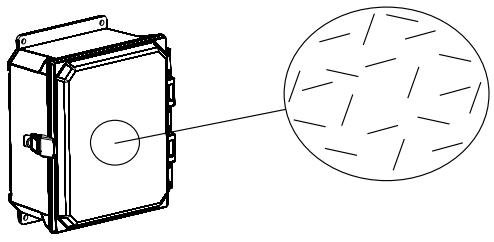
Fiberbloom Resistance



Fiberbloom resistance

- Change in aesthetics and texture
- 60% improvement over one competitor
- Equivalent results compared to two remaining competitors

ULTRAGUARD®
Fiberglass Material • Superior Protection • From Allied Moulded Products

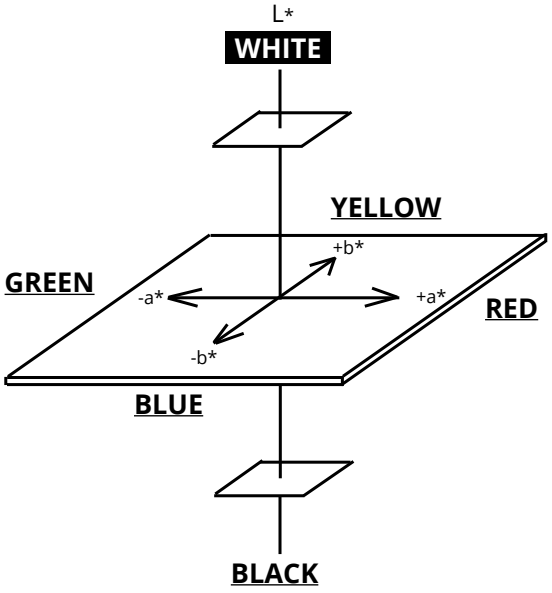


ULTRAGUARD® - How It Benefits Customers

Allied Moulded's ULTRAGUARD formulation, while retaining its already robust structural integrity, has an enhanced surface finish with improved aesthetics. Based upon customer feedback, Allied Moulded recognized an increased number of customer applications requiring outdoor capability and the related challenges to nonmetallic enclosure designs. This is why Allied Moulded chooses to invest in continuous improvement of our material formulations. Customer applications often require enclosures to be mounted on expensive systems where aesthetic appearance is critical. Changes in enclosure color, texture, and gloss in these applications are not acceptable. Fiberbloom, for example, not only is aesthetically unattractive, but can also be a safety issue if people come in physical contact with the enclosure surface. Literally defined, fiberbloom is degradation of the polyester compound surface during long-term outdoor exposure, resulting in the eventual exposure of glass fibers. Fiberbloom does not affect the structural integrity or NEMA rating of the enclosures.

ULTRAGUARD® - How The Results Were Proven

Allied Moulded's Materials R&D lab team accepted the continuous improvement project challenge of finding a synergistic combination of compounds that would improve material resistance to color change, gloss change, surface degradation, and exposure of surface glass particles. Our team successfully met the challenge of maintaining standard material characteristics: UL 94 5VA flame test standards and RoHS directive (Restriction of Hazardous Substances). The formulation does not contain antimony or halogens, which reduce the risk of smoke borne toxicity. Allied Moulded's research and development lab replaced subjective test results found in normal field testing with objective test results that were achieved with industry accepted lab equipment. Internal lab tests and outsourced, third-party, independent lab testing (by Q-lab Weathers Research Service) was conducted with a QUV accelerated weathering tester. Gloss readings were recorded using a BYK Micro Tri-Gloss machine and color data was recorded using a Hunter Lab ColorQuest sphere instrument. All test results were obtained and reported per ASTM and ISO standards.



L* a* b* Color Space - Instrumental color readings utilize three numbers to describe a color baseline.

ULTRAGUARD® - Versus Steel Enclosures

There are many factors to consider when choosing an enclosure. Nonmetallic enclosures have proven to be a great alternative to steel enclosures in harsh environment applications. Properties that make the ULTRAGUARD FRP enclosures a prominent solution include their light weight, non-corrosive nature, ease of modification, resistance to dents, and inherent protection of seal integrity.

RoHS COMPLIANT

THE FIBERGLASS ADVANTAGE

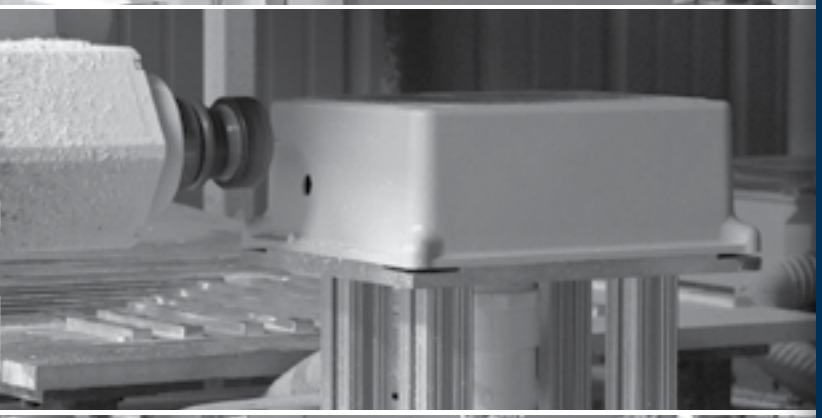
FIBERGLASS REINFORCED POLYESTER (FRP)

The Superior Enclosure Material

Allied Moulded fiberglass enclosures are fabricated from our own proprietary ULTRAGUARD® formulation. This material provides superior performance and protective properties in a wide variety of environments.

Beyond Meeting Standards to Exceeding Expectations

Of course, Allied Moulded fiberglass enclosures are designed and regularly tested to meet stringent UL® but we don't stop there. Our full line of corrosion-resistant, maintenance-free fiberglass enclosures is designed to provide optimum protection in the harshest environments, from water treatment facilities and irrigation systems to oil refineries and chemical processing plants.



OUTPERFORMING THE

ALTERNATIVES

Fiberglass reinforced polyester (FRP) offers significant benefits over metal enclosures such as carbon and stainless steel.

Compare them and you'll discover that fiberglass reinforced polyester enclosures are:

- Lighter and easier to handle
- Strong enough to hold up under extreme conditions
- Equal to stainless steel in corrosion and chemical resistance, and far better than carbon steel
- Non-conductive—an electrical insulator rather than electrical conductor
- Much easier to punch, drill or saw
- Less expensive to ship

Allied Moulded enclosures also outperform other nonmetallic alternatives in areas such as:

- Chemical resistance
- Protection against degradation due to UV exposure
- Resistance to extreme temperatures
- Flame retardant properties

Take the time to compare the cost, quality and performance of our fiberglass reinforced polyester products and you'll see why we say Allied Moulded has the superior enclosure solutions.

Performance Comparison of Enclosure Materials

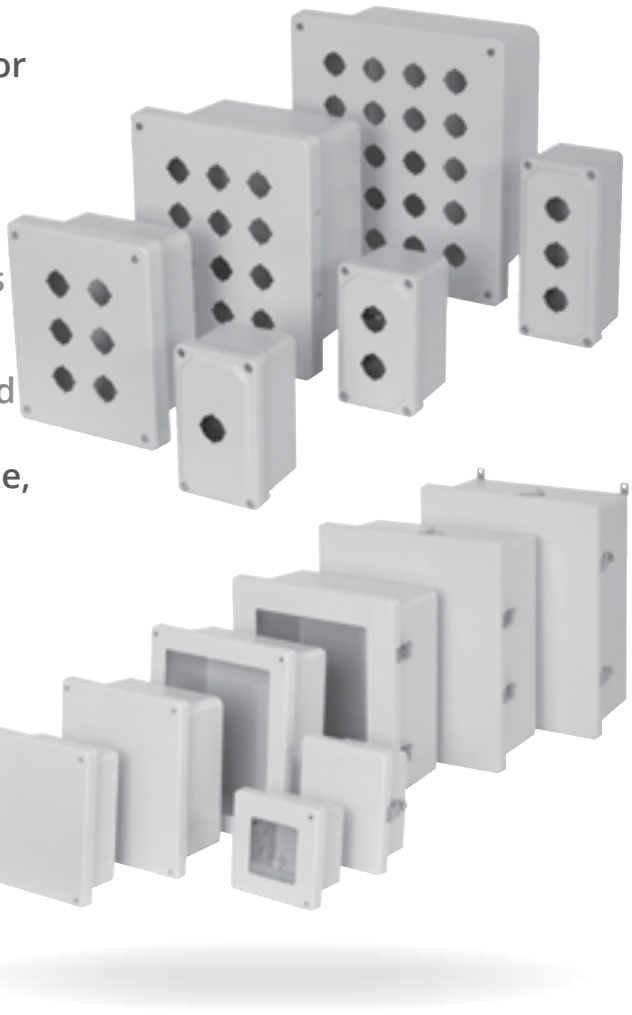
	Fiberglass	Stainless Steel	Carbon Steel	PVC	Polycarbonate
Corrosive Resistance	Excellent	Excellent	Poor	Excellent	Fair
Chemical Resistance	Excellent	Excellent	Poor	Very Good	Good
Relative Cost	Low	High	Low to Moderate	Low	Low to Moderate
Drilling, Punching & Cutting	Very Easy	Extremely Hard	Hard	Very Easy	Easy
Dielectric Strength	Electrical Insulator	Electrical Conductor	Electrical Conductor	Electrical Insulator	Electrical Insulator
Weight	Light	Heavy	Heavy	Light	Light

AM SERIES

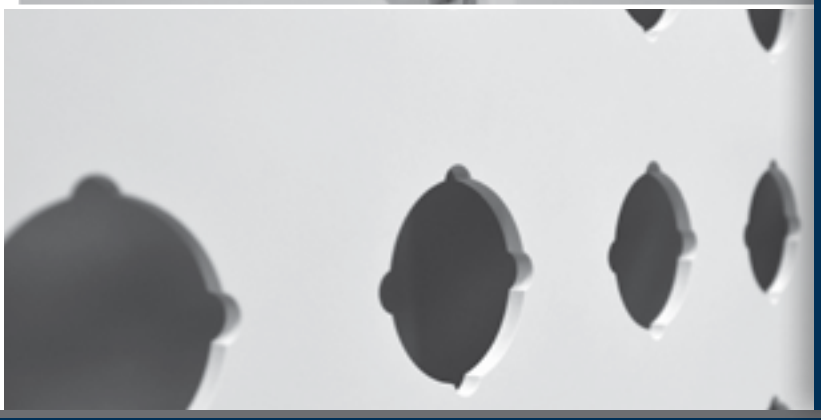
FIBERGLASS

AM Series boxes are designed to insulate and protect controls and components in both indoor and outdoor applications and are especially well suited for high temperature or corrosive environments. They feature flat covers with a variety of latching options that allow you to provide the level of security and ease of access needed for each application.

The AM Series offers a wide variety of sizes and configurations including small junction boxes; inline pushbutton enclosures in one, two, three, or four-hole configurations and two hole sizes; and standard JIC size enclosures.



Scan to learn more



AM Series Features & Benefits

- Molded ULTRAGUARD® fiberglass reinforced polyester (FRP) material construction for durability
- Continuous 316 stainless steel hinge
- Formed-In-Place (FIP) polyurethane gasket system
- Matching flat cover
- 316 stainless steel hardware and mounting feet
- Mounting panel inserts for optional back panel
- UV stabilized for outdoor use

AM Series Specifications

- Non-corrosive
- Non-conductive
- Standard RAL 7035 light gray color
- Temperature-resistant
- Fire-resistant
- Rated NEMA 1, 2, 3, 3R, 4, 4X, 12, 13
- UL® listed
- Compliant with RoHS directive

Accessories

- ULTRAPLUG® hole plugs
- Pole mount kits
- HMI cover kits
- Inspection windows
- UV resistant polycarbonate viewing windows

Modifications

We are pleased to modify any of our standard products to fit your needs with:

- Custom holes and cutouts
- Custom size polycarbonate viewing windows
- Molded-in color matching
- Hinge installed on short side
- EMI/RFI shielding
- Factory-supplied custom printing

For complete details on factory modifications including a modification request form, see pages 1-3.

AM Series

SMALL JUNCTION BOXES

Cover Type

Solid/Opaque

Closure Type

Lift-Off Screw Cover

Application

Designed for use as electrical junction boxes, terminal wiring boxes, instrumentation housings, and electrical control enclosures

- Especially well suited for high temperature or corrosive environments
- Protects from dirt, dust, oil and water
- For use with industrial control equipment

Standards

- UL 50 and UL 50E Types 1, 2, 3, 3R, 4, 4X, 12 and 13
- Complies with:
  - NEMA Types 1, 2, 3, 3R, 4, 4X, 12 and 13
  - IEC 60529 Type IP66
  - RoHS directive

Construction

- Rugged, molded ULTRAGUARD® fiberglass reinforced polyester material construction with reinforced corners
- Two sizes: 7"x4"x3" and 9"x4"x3"
- 316 stainless steel captive cover screws
- Formed-In-Place (FIP) polyurethane gasket system encased in continuous channel
- 316 stainless steel wall mounting feet with 10-32 stainless steel screws included
- #10-32 threaded brass inserts for optional back panel installation
- UV stabilized for outdoor use

Accessories & Modifications

- Custom holes & cutouts
- Custom size polycarbonate viewing windows
- Molded-in color matching
- EMI/RFI shielding
- Factory-supplied custom printing

Cover Type

Flat Solid/Opaque

Closure Type

Lift-Off Screw Cover

Application

Designed to insulate and protect controls and components in both indoor and outdoor applications often found in oil refineries, waste water treatment equipment, chemical plants, and many other applications

- Especially well suited for high temperature or corrosive environments
- Protects from dirt, dust, oil and water
- For use with industrial control equipment

Standards

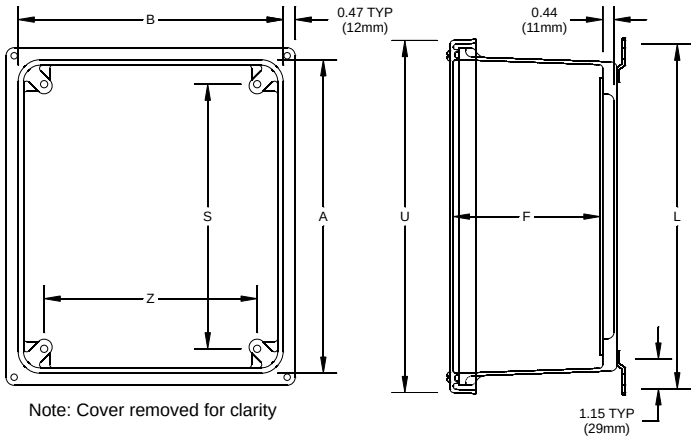
- UL 50 and UL 50E Types 1, 2, 3, 3R, 4, 4X, (6P for sizes 6"x6" up through 14"x12"), 12 and 13
- Complies with:
  - NEMA Types 1, 2, 3, 3R, 4, 4X, (6P for sizes 6"x6" up through 14"x12"), 12 and 13
  - IEC 60529 Type IP66 and units rated 6P are IP68 submersible up to 24 hours at a depth of 6 feet (1.8 meters)
  - RoHS directive

Construction

- Strong, molded ULTRAGUARD® fiberglass reinforced polyester material construction with matching flat cover
- 316 stainless steel captive cover screws
- Formed-In-Place (FIP) polyurethane gasket system encased in continuous channel
- 316 stainless steel wall mounting feet with 10-32 stainless steel screws included
- #10-32 threaded brass inserts for optional back panel installation
- JIC sizes
- ULTRAGUARD® fiberglass material is easily punched, drilled, or sawed
- UV stabilized for outdoor use

Accessories & Modifications

- Custom holes and cutouts
- Custom size polycarbonate viewing windows
- Molded-in color matching
- EMI/RFI shielding
- Factory-supplied custom printing



Note: Cover removed for clarity

- UV resistant polycarbonate viewing window
- 316 stainless steel captive cover screws
- Continuous 316 stainless steel hinge
- Formed-In-Place (FIP) polyurethane gasket system encased in continuous channel
- 316 stainless steel wall mounting feet with 10-32 stainless steel screws included
- #10-32 threaded brass inserts for optional back panel installation
- JIC sizes
- ULTRAGUARD® fiberglass material is easily punched, drilled, or sawed
- UV stabilized for outdoor use

Accessories & Modifications

- Custom holes and cutouts
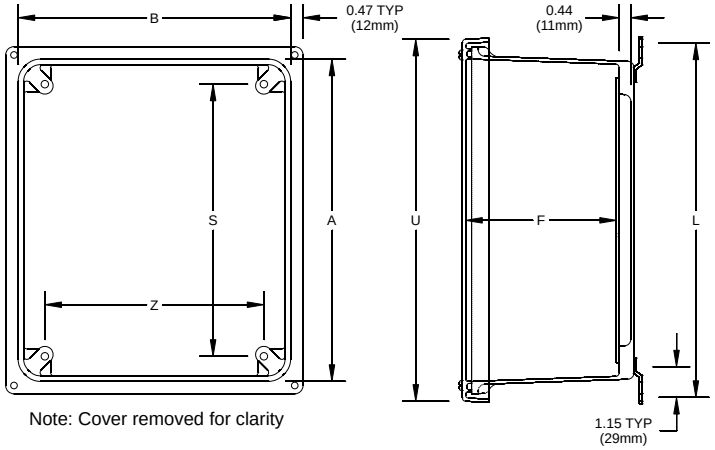
- Hinge installed on short side
- Molded-in color matching
- EMI/RFI shielding
- Factory-supplied custom printing



Note: Cover removed for clarity

AM Series

JIC SIZE JUNCTION BOXES

Cover Type

Flat Solid/Opaque

Closure Type

Snap Latch Hinged Cover

Application

Designed to insulate and protect controls and components in both indoor and outdoor applications often found in oil refineries, waste water treatment equipment, chemical plants, and many other applications

- Especially well suited for high temperature or corrosive environments
- Protects from dirt, dust, oil and water
- For use with industrial control equipment

Standards

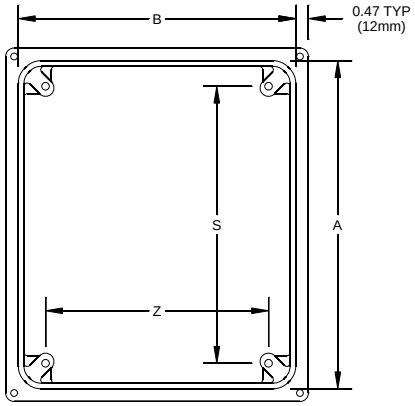
- UL 50 and UL 50E Types 1, 2, 3, 3R, 4, 4X, 12 and 13
- Complies with:
  - NEMA Types 1, 2, 3, 3R, 4, 4X, 12 and 13
  - IEC 60529 Type IP66
  - RoHS directive

Construction

- Strong, molded ULTRAGUARD® fiberglass reinforced polyester material construction with matching flat cover
- 316 stainless steel snap latches feature padlock hasp (.375" dia.)
- Continuous 316 stainless steel hinge
- Formed-In-Place (FIP) polyurethane gasket system encased in continuous channel
- 316 stainless steel wall mounting feet with 10-32 stainless steel screws included
- #10-32 threaded brass inserts for optional back panel installation
- JIC sizes
- ULTRAGUARD® fiberglass material is easily punched, drilled, or sawed
- UV stabilized for outdoor use

Accessories & Modifications

- Custom holes and cutouts
- Custom size polycarbonate viewing windows
- Hinge installed on short side
- Molded-in color matching
- EMI/RFI shielding
- Factory-supplied custom printing



Note: Cover removed for clarity

Enclosure base part numbers come standard with 4 separately bagged feet (ex. AM664T)

AM Series

JIC SIZE JUNCTION BOXES

Cover Type

Flat Viewing Window

Closure Type

Twist Latch Hinged Cover

Application

Designed to insulate and protect controls and components in both indoor and outdoor applications often found in oil refineries, waste water treatment equipment, chemical plants, and many other applications

- Especially well suited for high temperature or corrosive environments
- Protects from dirt, dust, oil and water
- For use with industrial control equipment
- Window unit provides viewing area for instrumentation or equipment

Standards

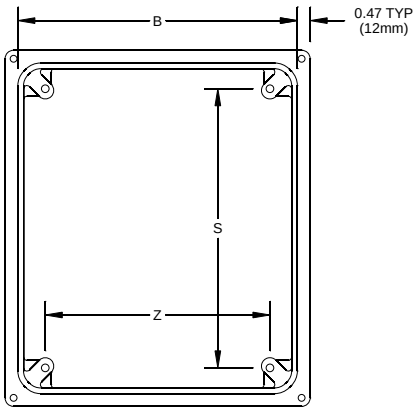
- UL 50 and UL 50E Types 1, 2, 3, 3R, 4, 4X, 12 and 13
- Complies with:
  - NEMA Types 1, 2, 3, 3R, 4, 4X, 12 and 13
  - IEC 60529 Type IP66
  - RoHS directive

Construction

- Strong, molded ULTRAGUARD® fiberglass reinforced polyester material construction with matching flat cover
- UV resistant polycarbonate viewing window
- 316 stainless steel twist latches feature padlock hasp (.375" dia.)
- Continuous 316 stainless steel hinge
- Formed-In-Place (FIP) polyurethane gasket system encased in continuous channel
- 316 stainless steel wall mounting feet with 10-32 stainless steel screws included
- #10-32 threaded brass inserts for optional back panel installation
- JIC sizes
- ULTRAGUARD® fiberglass material is easily punched, drilled, or sawed
- UV stabilized for outdoor use

Accessories & Modifications

- Custom holes and cutouts
- Hinge installed on short side
- Molded-in color matching
- EMI/RFI shielding
- Factory-supplied custom printing



Note: Cover removed for clarity

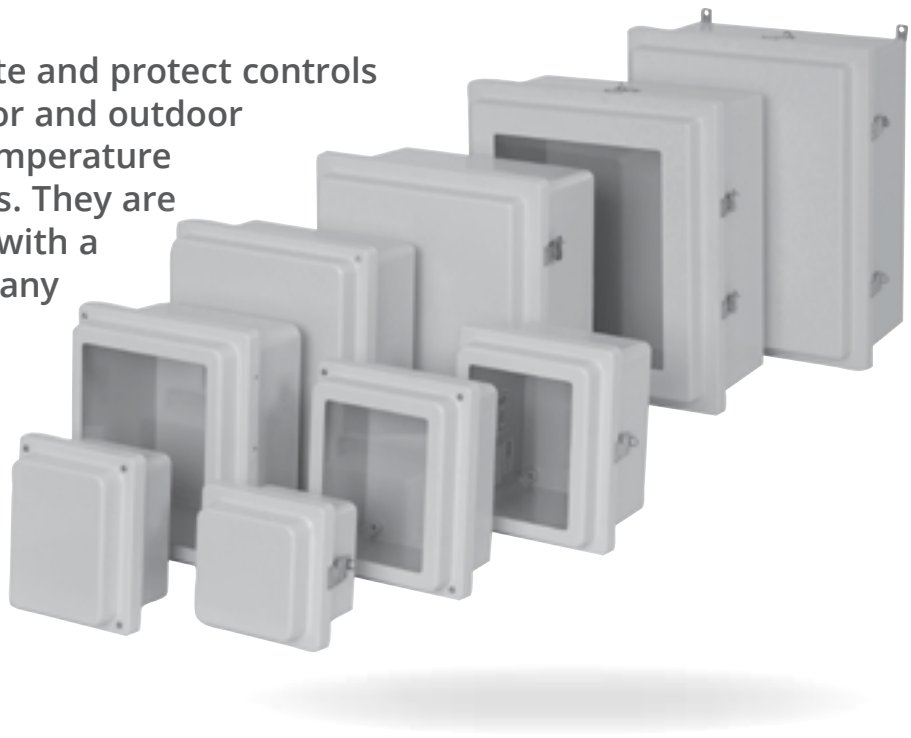
AM-R SERIES

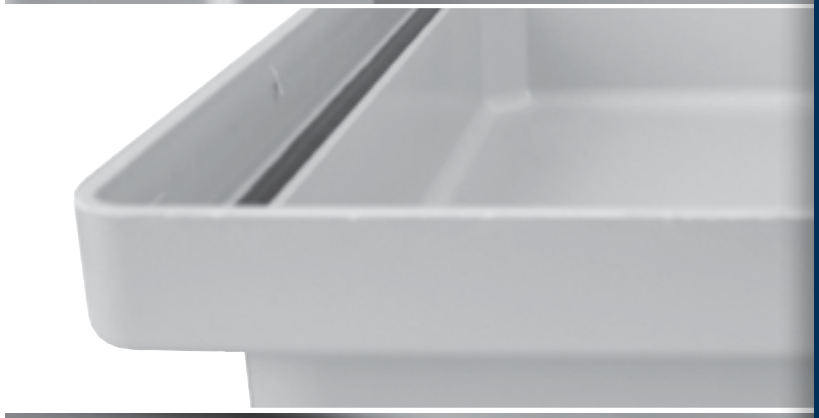
FIBERGLASS

The AM-R Series offers the same sizes and options as our AM series, with the added feature of a raised cover. The cover adds an additional 1-3/4" of depth to accommodate switches and other devices, and can be used with an optional hinged front panel (HFP) for maximum configuration flexibility within a single enclosure.

AM-R Series enclosures insulate and protect controls and components in both indoor and outdoor applications, including high temperature and/or corrosive environments. They are available in standard JIC sizes with a variety of latching options for any application.



Scan to learn more



AM-R Series Features & Benefits

- Molded ULTRAGUARD® fiberglass reinforced polyester (FRP) material construction for durability
- Continuous 316 stainless steel hinge
- Formed-In-Place (FIP) polyurethane gasket system
- Matching raised cover
- 316 stainless steel hardware and mounting feet
- Mounting panel inserts for optional back panel
- UV stabilized for outdoor use

AM-R Series Specifications

- Non-corrosive
- Non-conductive
- Standard RAL 7035 light gray color
- Temperature-resistant
- Fire-resistant
- Rated NEMA 1, 2, 3, 3R, 4, 4X, 12, 13
- UL® listed
- Compliant with RoHS directive

Accessories

- Optional hinged front panels
- ULTRAPLUG® hole plugs
- Pole mount kits
- HMI cover kits
- Inspection windows
- UV resistant polycarbonate viewing windows

Modifications

We are pleased to modify any of our standard products to fit your needs with:

- Custom holes and cutouts
- Custom size polycarbonate viewing windows
- Molded-in color matching
- Hinge installed on short side
- EMI/RFI shielding
- Factory-supplied custom printing

For complete details on factory modifications including a modification request form, see pages 1-3.

JIC SIZE JUNCTION BOXES

Cover Type

Raised Solid/Opaque

Latching Option

Lift-Off Screw Cover

Application

Designed to insulate and protect controls and components in both indoor and outdoor applications often found in oil refineries, waste water treatment equipment, chemical plants, and many other applications

- Especially well suited for high temperature or corrosive environments
- Protects from dirt, dust, oil and water
- For use with industrial control equipment

Standards

- UL 50 and UL 50E Types 1, 2, 3, 3R, 4, 4X, (6P for sizes 6"x6" up through 14"x12"), 12 and 13
- Complies with:
  - NEMA Types 1, 2, 3, 3R, 4, 4X, (6P for sizes 6"x6" up through 14"x12"), 12 and 13
  - IEC 60529 Type IP68 submersible up to 24 hours at a depth of 6 feet (1.8 meters)
  - RoHS directive

Construction

- Strong, molded ULTRAGUARD® fiberglass reinforced polyester material construction with matching raised cover
- 316 stainless steel captive cover screws
- Formed-In-Place (FIP) polyurethane gasket system encased in continuous channel
- 316 stainless steel wall mounting feet with 10-32 stainless steel screws included
- #10-32 threaded brass inserts for optional back panel installation
- JIC sizes
- ULTRAGUARD® fiberglass material is easily punched, drilled, or sawed
- UV stabilized for outdoor use

Accessories & Modifications

- Custom holes and cutouts
- Custom size polycarbonate viewing windows
- Molded-in color matching
- EMI/RFI shielding
- Factory-supplied custom printing

AM-R Series

JIC SIZE JUNCTION BOXES

Cover Type

Raised Solid/Opaque

Closure Type

Hinged Screw Cover

Application

Designed to insulate and protect controls and components in both indoor and outdoor applications often found in oil refineries, waste water treatment equipment, chemical plants, and many other applications

- Especially well suited for high temperature or corrosive environments
- Protects from dirt, dust, oil and water
- For use with industrial control equipment

Standards

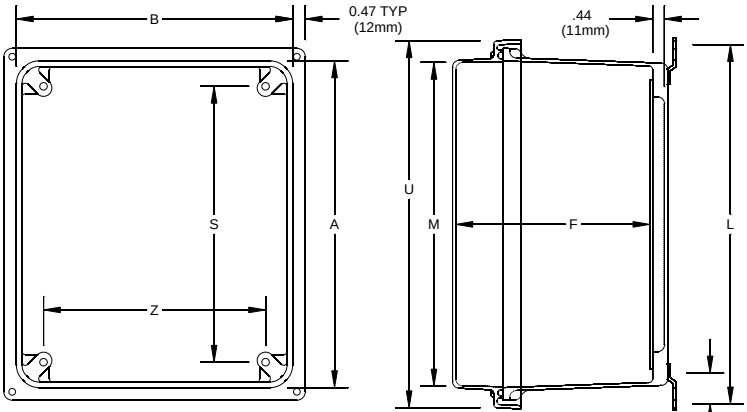
- UL 50 and UL 50E Types 1, 2, 3, 3R, 4, 4X, 12 and 13
- Complies with:
  - NEMA Types 1, 2, 3, 3R, 4, 4X, 12 and 13
  - IEC 60529 Type IP66
  - RoHS directive

Construction

- Strong, molded ULTRAGUARD® fiberglass reinforced polyester material construction with matching raised cover
- 316 stainless steel captive cover screws
- Continuous 316 stainless steel hinge
- Formed-In-Place (FIP) polyurethane gasket system encased in continuous channel
- 316 stainless steel wall mounting feet with 10-32 stainless steel screws included
- #10-32 threaded brass inserts for optional back panel installation
- JIC sizes
- ULTRAGUARD® fiberglass material is easily punched, drilled, or sawed
- UV stabilized for outdoor use

Accessories & Modifications

- Custom holes and cutouts
- Custom size polycarbonate viewing windows
- Hinge installed on short side
- Molded-in color matching
- EMI/RFI shielding
- Factory-supplied custom printing



Note: Cover removed for clarity

JIC SIZE JUNCTION BOXES

Cover Type

Raised Viewing Window

Closure Type

Snap Latch Hinged Cover

Application

Designed to insulate and protect controls and components in both indoor and outdoor applications often found in oil refineries, waste water treatment equipment, chemical plants, and many other applications

- Especially well suited for high temperature or corrosive environments
- Protects from dirt, dust, oil and water
- For use with industrial control equipment
- Window unit provides viewing area for instrumentation or equipment

Standards

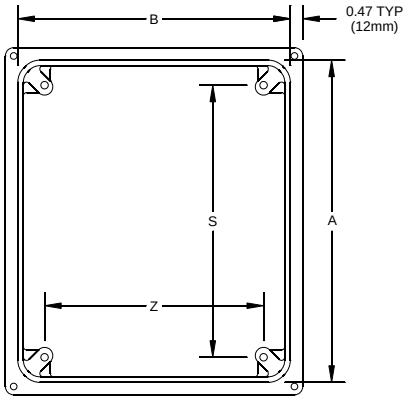
- UL 50 and UL 50E Types 1, 2, 3, 3R, 4, 4X, 12 and 13
- Complies with:
  - NEMA Types 1, 2, 3, 3R, 4, 4X, 12 and 13
  - IEC 60529 Type IP66
  - RoHS directive

Construction

- Strong, molded ULTRAGUARD® fiberglass reinforced polyester material construction with matching raised cover
- UV resistant polycarbonate viewing window
- 316 stainless steel snap latches feature padlock hasp (.375" dia.)
- Continuous 316 stainless steel hinge
- Formed-In-Place (FIP) polyurethane gasket system encased in continuous channel
- 316 stainless steel wall mounting feet with 10-32 stainless steel screws included
- #10-32 threaded brass inserts for optional back panel installation
- JIC sizes
- ULTRAGUARD® fiberglass material is easily punched, drilled, or sawed
- UV stabilized for outdoor use

Accessories & Modifications

- Custom holes and cutouts
- Hinge installed on short side
- Molded-in color matching
- EMI/RFI shielding
- Factory-supplied custom printing



Note: Cover removed for clarity

RoHS COMPLIANT

AMHD-R Series

HEAVY DUTY
SOLAR BATTERY BOX

Cover Type

Raised Solid/Opaque

Closure Type

Snap Latch Hinged Cover

Application

Designed to insulate and house solar storage batteries for various telemetry applications in outdoor locations

- Especially well suited for high temperature or corrosive environments
- Protects from dirt, dust, oil and water

Standards

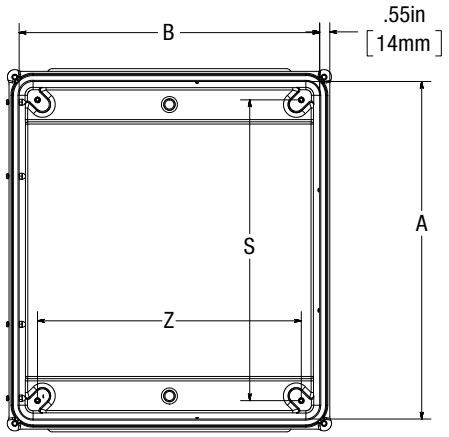
- UL 50 and UL 50E Types 1, 2, 3, 3R, 4, 4X, 12 and 13
- Complies with:
  - NEMA Types 1, 2, 3, 3R, 4, 4X, 12 and 13
  - IEC 60529 Type IP66
  - RoHS directive

Construction

- Strong, molded ULTRAGUARD® fiberglass reinforced polyester material construction with matching raised cover
- 316 stainless steel snap latches feature padlock hasp (.375" dia.)
- Formed-In-Place (FIP) polyurethane gasket system encased in continuous channel
- Polycarbonate flanges installed with (4) 316 series stainless steel screws
- #10-32 threaded brass inserts are installed for optional back panel
- ULTRAGUARD® fiberglass material is easily punched, drilled, or sawed
- UV stabilized for outdoor use

Accessories & Modifications

- Pole mount kits available
- Custom holes and cutouts
- Custom size polycarbonate viewing windows
- Molded-in color matching
- EMI/RFI shielding
- Factory-supplied custom printing



NOTE: REMOVED COVER FOR CLARITY

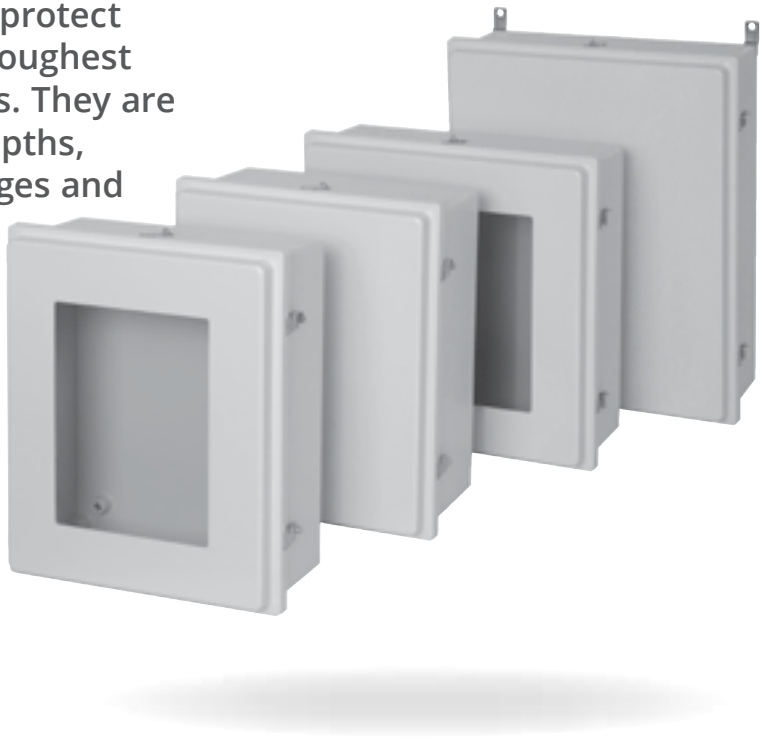
CONTROL SERIES

FIBERGLASS

The larger Control Series offers standard features as well as full-panel access and all usable panel space. In addition, the standard gray cover is available with or without a polycarbonate viewing window. Other options include removable aluminum hinged front panel and back panels.

Control Series enclosures insulate and protect controls and components against the toughest elements in the harshest environments. They are available in popular larger sizes and depths, along with standard stainless steel hinges and latches.



Scan to learn more

Control Series Features & Benefits

- Molded ULTRAGUARD® fiberglass reinforced polyester material construction for durability
- One-piece body construction provides added dimensional stability
- (2) 316 stainless steel hinges
- Formed-In-Place (FIP) polyurethane gasket system
- Matching raised cover
- 316 stainless steel hardware and mounting feet
- Mounting panel inserts for optional back panel
- UV stabilized for outdoor use

Control Series Specifications

- Non-corrosive
- Non-conductive
- Standard RAL 7035 light gray color
- Temperature-resistant
- Fire-resistant
- Rated NEMA 1, 2, 3, 3R, 4, 4X, 12, 13
- UL® listed
- Compliant with RoHS directive

Accessories

- Aluminum hinged front panel for configuration flexibility
- ULTRAPLUG® hole plugs
- Pole mount kits
- HMI cover kits
- Inspection windows
- UV resistant polycarbonate viewing windows

Modifications

We are pleased to modify any of our standard products to fit your needs with:

- Custom holes and cutouts
- Custom size polycarbonate viewing windows
- Molded-in color matching
- EMI/RFI shielding
- Factory-supplied custom printing

For complete details on factory modifications including a modification request form, see pages 1-3.

Raised Viewing Window

Closure Type
Twist Latch Hinged Cover

Application

Designed to insulate and house electrical and electronic controls, instruments or components for indoor and outdoor applications

- Especially well suited for high temperature or corrosive environments
- Protects from dirt, dust, oil, and water
- Window unit provides viewing area for instrumentation or equipment

Standards

- UL 50 and UL 50E Types 1, 2, 3, 3R, 4, 4X, 12 and 13
- Complies with:
  - NEMA Types 1, 2, 3, 3R, 4, 4X, 12 and 13
  - IEC 60529 Type IP66
  - RoHS directive

Construction

- Strong, molded ULTRAGUARD® fiberglass reinforced polyester material construction with matching raised cover
- UV resistant polycarbonate viewing window
- Light gray color (RAL 7035)
- 316 stainless steel twist latches feature padlock hasp (.375" dia.)
- (2) 316 stainless steel hinges
- Formed-In-Place (FIP) polyurethane gasket system encased in continuous channel
- 316 stainless steel wall mounting feet with 3/8-16 stainless steel screws included
- 3/8-16 threaded brass inserts are installed for back panel mounting
- UV stabilized for outdoor use

Accessories & Modifications

- Custom holes and cutouts
- Molded-in color matching
- EMI/RFI Shielding
- Factory-supplied custom printing

Control XL Series

FIBERGLASS ENCLOSURES

Cover Type

Solid/Opaque

Closure Type

3-Point Latching Handle

Application

Designed to insulate and protect controls and components in both indoor and outdoor applications often found in oil refineries, waste water treatment equipment, chemical plants, and many other applications

- Especially well suited for high temperature or corrosive environments
- Protects from dirt, dust, oil, and water
- For use with industrial control equipment

Standards

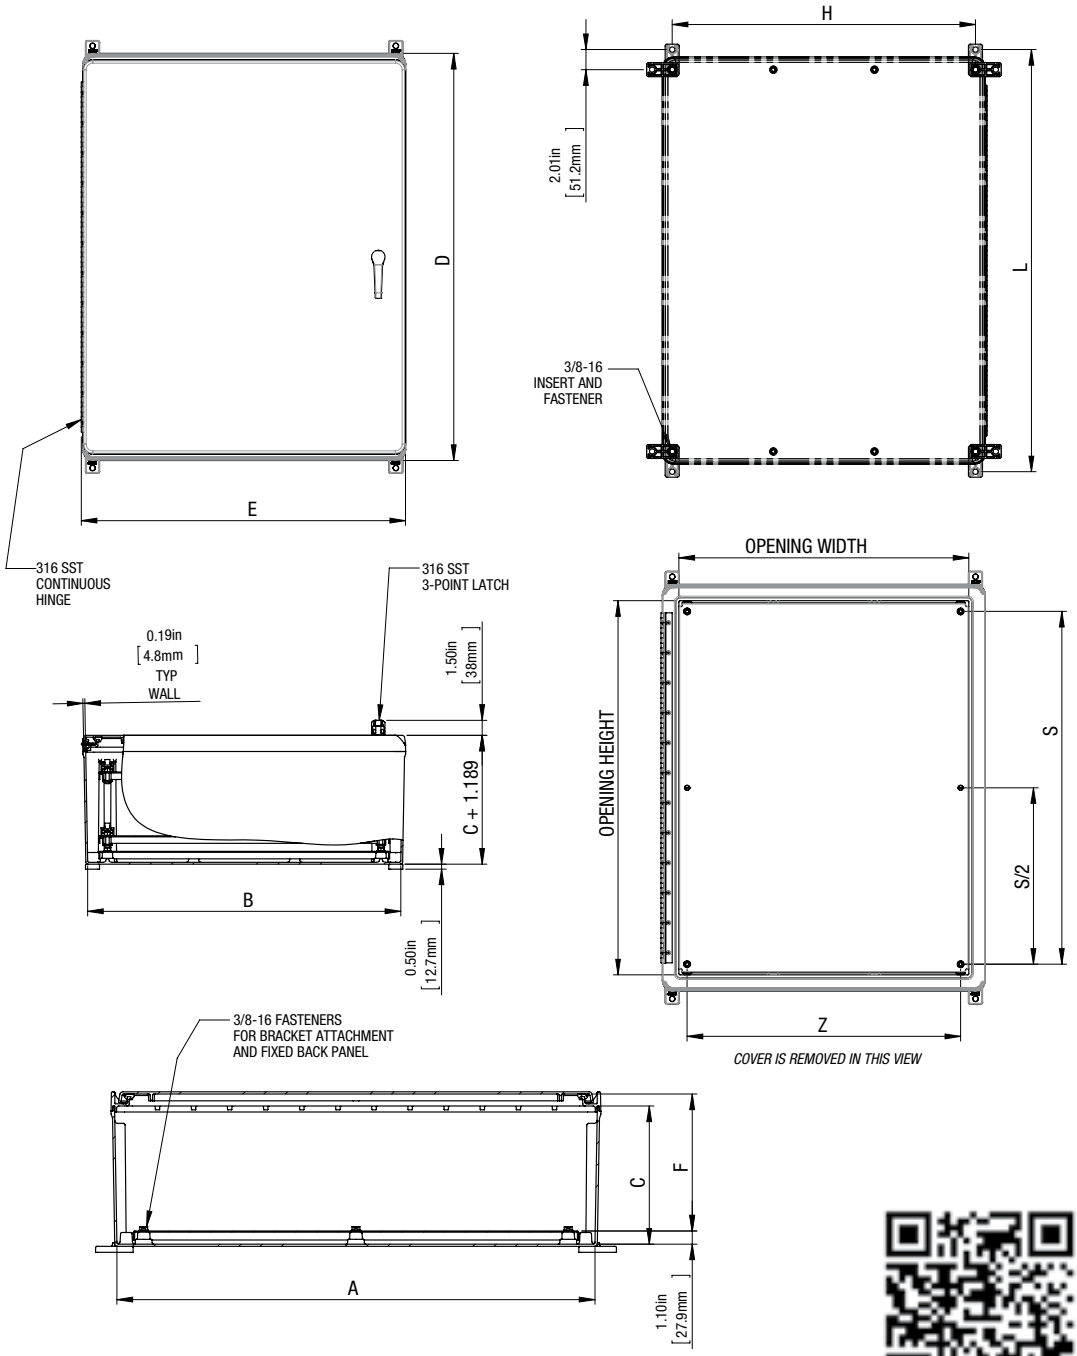
- UL 50 and UL 50E Types 1, 2, 3, 3R, 4, 4X, 12 and 13
- Complies with:
  - NEMA Types 1, 2, 3, 3R, 4, 4X, 12 and 13
  - IEC 60529 Type IP66
  - RoHS directive

Construction

- Molded cover and two piece box from ULTRAGUARD® material in standard light gray RAL 7035 color
- 316 stainless steel 3-point latching handle with padlock provision
- Formed-In-Place (FIP) polyurethane gasket system provides sealing means to meet IP66/NEMA 4X rating
- Rain guard is molded into enclosure box frame top and bottom for additional protection
- Can easily be reconfigured for RH or LH door opening operation
- Mounting feet are molded in fiberglass material with 316 stainless steel mounting screws included
- Brass inserts are installed for mounting feet; feet can be rotated 90° for alternate mounting configurations
- Heavy duty continuous 316 stainless steel hinge

Accessories & Modifications

- Custom holes and cutouts
- Custom size polycarbonate viewing windows
- Factory-supplied custom printing



Panel adjustment; (K) 6.38" (162mm)

EMPIRE SERIES

FIBERGLASS

Allied Moulded Empire series wall mount enclosures may be used where contractors are looking for an enclosure that is lighter in weight for easier installation and simple-to-access cabinet doors for easier service capability. Units feature optional 3-point latching cabinet doors or twist latches for convenience.

Designed for large cabinet installations for major industrial and communication applications, our freestanding Empire series cabinets are available in single and double door sizes, and feature a lockable 3-point latching door handle system, while maintaining a NEMA 4X rating.

Scan to learn more

Empire Series Features & Benefits

- Gel coat fiberglass reinforced polyester (FRP) material construction for durability
- Continuous 316 stainless steel hinge
- Flexible, self-gripping gasket compresses over flange for tight seal
- Wall mount units come with two latching options to meet NEMA Type 4X requirements:
  - 316 stainless steel twist latches with padlock hasp
  - Padlockable 3-point latching handles
- Freestanding units have padlockable 3-point latching handles which meet NEMA Type 4X requirements

Empire Series Specifications

- Non-corrosive
- Non-conductive
- Standard RAL 7035 light gray color
- Lightweight vs. stainless steel
- Temperature-resistant
- Fire-resistant
- Rated NEMA 1, 4, and 4X
- UL® listed
- Compliant with RoHS directive

Accessories

- ULTRAPLUG® hole plugs
- Pole mount kits
- HMI cover kits
- Inspection Windows

Modifications

We are pleased to modify any of our standard products to fit your needs with:

- Custom holes and cutouts
- Custom size polycarbonate viewing windows
- Molded-in color matches
- EMI/RFI shielding
- Factory-supplied custom printing
- Mounting strut

For complete details on factory modifications including a modification request form, see pages 1-3.

Construction

- Molded cover and two piece box from ULTRAGUARD® material in standard light gray RAL 7035 color
- Optional 316 stainless steel twist latches (T) or 316 stainless steel 3-point latching handle (3PT)
- Formed-In-Place (FIP) polyurethane gasket system provides sealing means to meet IP66/NEMA 4X rating
- Integral mounting flange is molded in fiberglass material
- 3/8-16 threaded brass inserts are molded in for optional back panel
- 3/8-6 x .75 combo head, carbon steel plated screws are included with each enclosure for use with the optional back panel
- Heavy-duty, continuous 316 stainless steel hinge
- Optional UV-resistant polycarbonate viewing window (W)

Accessories & Modifications

- Custom size polycarbonate viewing windows
- HMI cover kits
- Inspection windows
- Optional print pocket

- Heavy-duty continuous 316 stainless steel hinge
- Fiberglass material has UV inhibitors which provide idea protection from outdoor weathering
- Heavy duty lifting eye bolts

Accessories & Modifications

- Custom size polycarbonate viewing windows
- HMI cover kits
- Inspection windows
- Optional print pocket

Empire Series

FREE STANDING DOUBLE DOOR

Cover Type

Solid/Opaque

Closure Type

3-Point Latch Hinged Cover

Application

Designed to insulate and house electrical and electronic controls, instruments or components for indoor and outdoor applications

- Especially well suited for high temperature or corrosive environments
- Protects from dirt, dust, oil, and water

Standards

- UL 50 and UL 50E Types 1, 4, and 4X
- Complies with:
  - NEMA Types 1, 4, and 4X
  - IEC 60529 Type IP66
  - RoHS directive

Construction

- Durable, corrosion resistant gel-coat fiberglass material construction
- Resin Transfer Molded (RTM) doors and hand-layup box construction
- Soft, self-gripping EPDM gasket, compresses over flange for tight seal
- Two 316 stainless steel 3-point latching handles with padlock provision
- Heavy-duty continuous 316 stainless steel hinge
- Fiberglass material has UV inhibitors which provide idea protection from outdoor weathering
- Heavy duty lifting eye bolts

Accessories & Modifications

- Custom size polycarbonate viewing windows
- HMI cover kits
- Inspection windows
- Optional print pocket

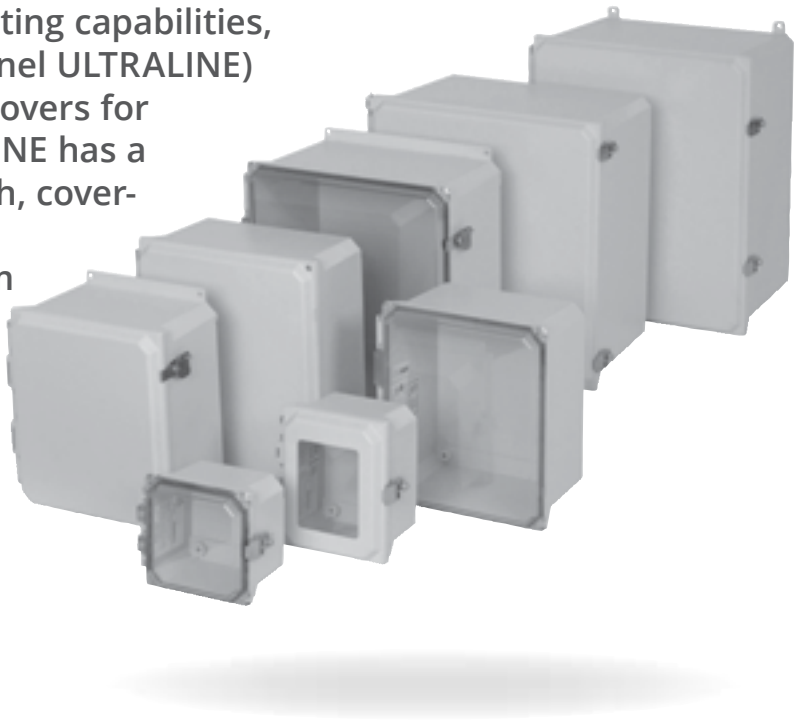
AMU SERIES

FIBERGLASS

ULTRALINE®

U.S. Pat. No. 7,572,975

The ULTRALINE® AMU series fiberglass product family from Allied Moulded was developed primarily for OEM (Original Equipment Manufacturer) panel builder applications requiring JIC sizes. These enclosures offer features such as patented multi-mounting capabilities, field installable HFPU (hinged front panel ULTRALINE) accessories, and clear polycarbonate covers for instrumentation applications. ULTRALINE has a more modern exterior design in a flush, cover-to-base contour which many system integrators prefer for improved system aesthetics. Available sizes include 6" x 6" x 4" (152mm x 152mm x 102mm) up through 20" x 16" x 10" (508mm x 406mm x 254mm).



Scan to learn more

AMU Series Features & Benefits

- Molded ULTRAGUARD® fiberglass reinforced polyester (FRP) material construction for durability
- Cover to base design - flush, aesthetically pleasing and more modern architecture
- Patented (US Pat. No. 7,572,975) multi-mounting capability
  - Out-of-the-box polycarbonate flange design (factory installed)
  - Optional polycarbonate foot mount brackets for multi-directional mounting (vertical or horizontal positioning)
  - 316 stainless steel foot/flange mounting screws
- Solid opaque or clear polycarbonate cover options
- Partial molded hinges with 316 stainless steel secure hinge pin – no wall penetrations
- Formed-In-Place (FIP) polyurethane gasket system
- Mounting panel inserts for optional back panel
- UV stabilized for outdoor use

AMU Series Specifications

- Non-corrosive
- Non-conductive
- Standard RAL 7035 light gray color
- Temperature-resistant
- Fire-resistant
- Rated NEMA 1, 2, 3, 3R, 4, 4X, 12 and 13
- UL® listed
- Compliant with RoHS directive

Accessories

- Optional hinged front panels
- ULTRAPLUG® hole plugs
- Pole mount kits
- HMI cover kits
- Inspection windows
- UV resistant polycarbonate viewing windows

Modifications

We are pleased to modify any of our standard products to fit your needs with:

- Custom holes and cutouts
- Custom size polycarbonate viewing windows
- Hinge installed on short side
- EMI/RFI shielding
- Factory-supplied custom printing

For complete details on factory modifications including a modification request form, see pages 1-3.

AMU Series

JIC SIZE JUNCTION BOXES

Cover Type

Solid/Opaque

Closure Type

Lift-Off Screw Cover

Application

Designed to insulate and protect controls and components in both indoor and outdoor applications often found in oil refineries, waste water treatment equipment, chemical plants, and many other applications

- Especially well suited for high temperature or corrosive environments
- Protects from dirt, dust, oil and water
- For use with industrial control equipment

Standards

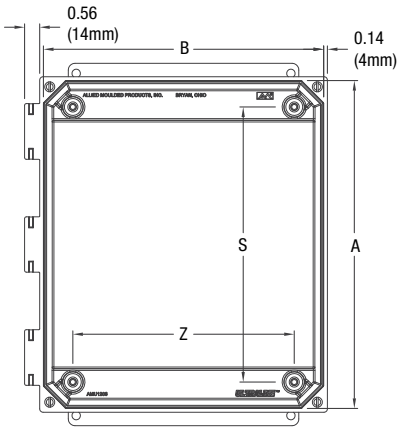
- UL 50 and UL 50E Types 1, 2, 3, 3R, 4, 4X, 6P, 12 and 13
- Complies with:
  - NEMA Types 1, 2, 3, 3R, 4, 4X, 6P, 12 and 13
  - IEC 60529 Type IP68 submersible up to 24 hours at a depth of 6 feet (1.8 meters)
  - RoHS directive

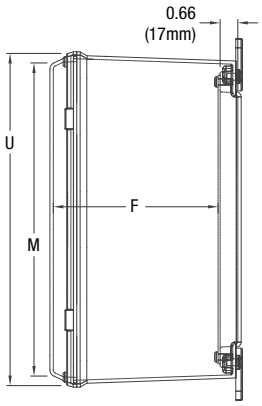
Construction

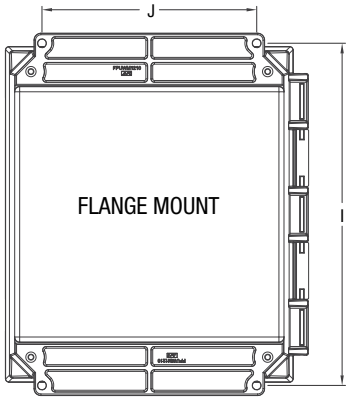
- Molded fiberglass reinforced polyester construction with flush, solid/opaque cover
- Allied Moulded ULTRAGUARD® fiberglass reinforced polyester material formulation - UV stabilized for outdoor use
- Opaque cover, base, feet, flanges — Light gray color (RAL 7035)
  Note: foot models mounting hardware supplied in a bag. Flanged models are pre-assembled
- 316 stainless steel captive cover screws
- Formed-In-Place (FIP) polyurethane gasket system encased in continuous channel
- Polycarbonate foot/flange mounting brackets with 316 stainless steel fasteners
- #10-32 threaded brass inserts are installed for back panel mounting

Accessories & Modifications

- Custom holes and cutouts
- Custom size polycarbonate viewing windows
- Molded-in color matching
- EMI/RFI shielding
- Factory-supplied custom printing







Note: Cover Removed for Clarity

AMU Series

JIC SIZE JUNCTION BOXES

Cover Type

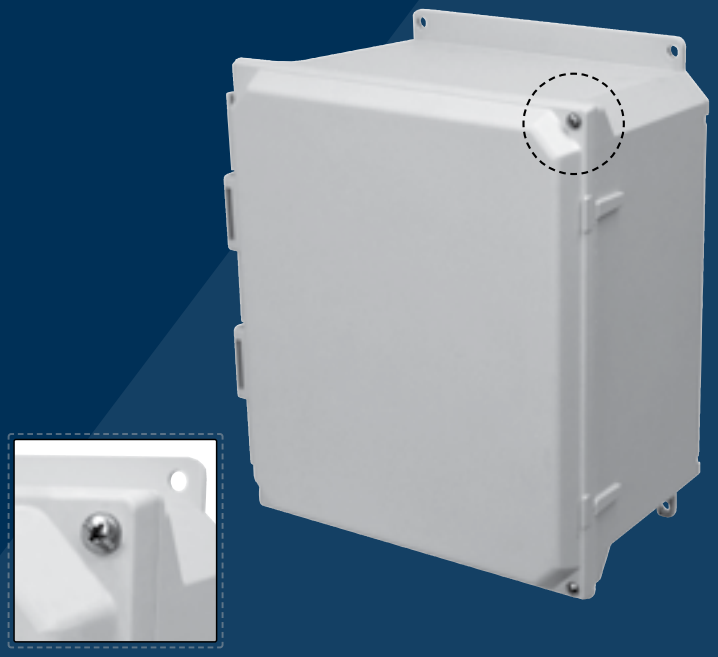
Solid/Opaque

Closure Type

Hinged Screw Cover



Application

Designed to insulate and protect controls and components in both indoor and outdoor applications often found in oil refineries, waste water treatment equipment, chemical plants, and many other applications

- Especially well suited for high temperature or corrosive environments
- Protects from dirt, dust, oil and water
- For use with industrial control equipment

Standards

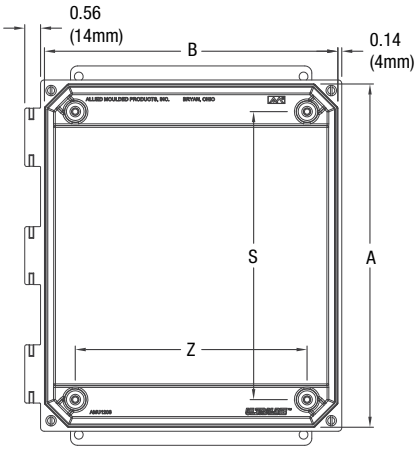
- UL 50 and UL 50E Types 1, 2, 3, 3R, 4, 4X, 12 and 13
- Complies with:
  - NEMA Types 1, 2, 3, 3R, 4, 4X, 12 and 13
  - IEC 60529 Type IP66
  - RoHS directive

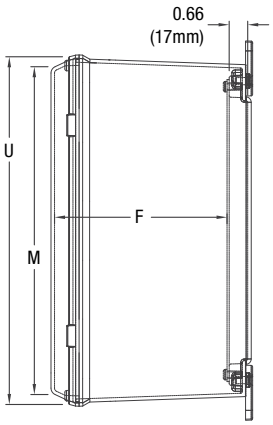
Construction

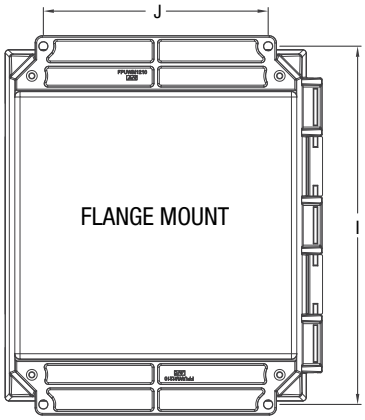
- Molded fiberglass reinforced polyester construction with flush, solid/opaque cover
- Allied Moulded ULTRAGUARD® fiberglass reinforced polyester material formulation - UV stabilized for outdoor use
- Opaque cover, base, feet, flanges — Light gray color (RAL 7035)
  Note: foot models mounting hardware supplied in a bag. Flanged models are pre-assembled
- 316 stainless steel hinge pin and captive cover screws
- Formed-In-Place (FIP) polyurethane gasket system encased in continuous channel
- Polycarbonate foot/flange mounting brackets with 316 stainless steel fasteners
- #10-32 threaded brass inserts are installed for back panel mounting

Accessories & Modifications

- Custom holes and cutouts
- Custom size polycarbonate viewing windows
- Molded-in color matching
- EMI/RFI shielding
- Factory-supplied custom printing







Note: Cover Removed for Clarity

AMU Series

JIC SIZE JUNCTION BOXES

Cover Type

Solid/Opaque

Closure Type

Snap Latch Hinged Cover

Application

Designed to insulate and protect controls and components in both indoor and outdoor applications often found in oil refineries, waste water treatment equipment, chemical plants, and many other applications

- Especially well suited for high temperature or corrosive environments
- Protects from dirt, dust, oil and water
- For use with industrial control equipment

Standards

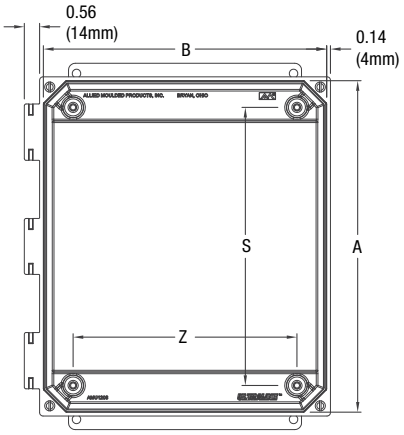
- UL 50 and UL 50E Types 1, 2, 3, 3R, 4, 4X, 12 and 13
- Complies with:
  - NEMA Types 1, 2, 3, 3R, 4, 4X, 12 and 13
  - IEC 60529 Type IP66
  - RoHS directive

Construction

- Molded fiberglass reinforced polyester construction with flush, solid/opaque cover
- Allied Moulded ULTRAGUARD® fiberglass reinforced polyester material formulation - UV stabilized for outdoor use
- Opaque cover, base, feet, flanges — Light gray color (RAL 7035)
  Note: foot models mounting hardware supplied in a bag. Flanged models are pre-assembled
- 316 stainless steel hinge pin and snap latches with padlock hasp (.375" dia.)
- Formed-In-Place (FIP) polyurethane gasket system encased in continuous channel
- Polycarbonate foot/flange mounting brackets with 316 stainless steel fasteners
- #10-32 threaded brass inserts are installed for back panel mounting

Accessories & Modifications

- Custom holes and cutouts
- Custom size polycarbonate viewing windows
- Molded-in color matching
- EMI/RFI shielding
- Factory-supplied custom printing



Note: Cover Removed for Clarity

AMU Series

JIC SIZE JUNCTION BOXES

Cover Type

Solid/Opaque

Closure Type

Nonmetal Snap Latch
Hinged Cover

Application

Designed to insulate and protect controls and components in both indoor and outdoor applications often found in oil refineries, waste water treatment equipment, chemical plants, and many other applications

- Especially well suited for high temperature or corrosive environments
- Protects from dirt, dust, oil and water
- For use with industrial control equipment

Standards

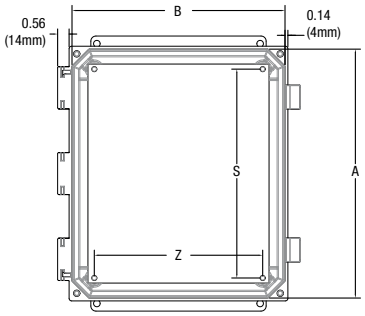
- UL 50 and UL 50E Types 1, 2, 3, 3R, 4, 4X, 12 and 13
- Complies with:
  - NEMA Types 1, 2, 3, 3R, 4, 4X, 12 and 13
  - IEC 60529 Type IP66
  - RoHS directive

Construction

- Molded fiberglass reinforced polyester construction with flush, solid/opaque cover
- Allied Moulded ULTRAGUARD® fiberglass reinforced polyester material formulation - UV stabilized for outdoor use
- Opaque cover, base, feet, flanges — Light gray color (RAL 7035)
  Note: foot models mounting hardware supplied in a bag. Flanged models are pre-assembled
- 316 stainless steel hinge pin and polycarbonate snap latches with padlock hasp (.281" dia.)
- Formed-In-Place (FIP) polyurethane gasket system encased in continuous channel
- Polycarbonate foot/flange mounting brackets with 316 stainless steel fasteners
- #10-32 threaded brass inserts are installed for back panel mounting

Accessories & Modifications

- Custom holes and cutouts
- Custom size polycarbonate viewing windows
- Molded-in color matching
- EMI/RFI shielding
- Factory-supplied custom printing



NOTE: COVER REMOVED FOR CLARITY

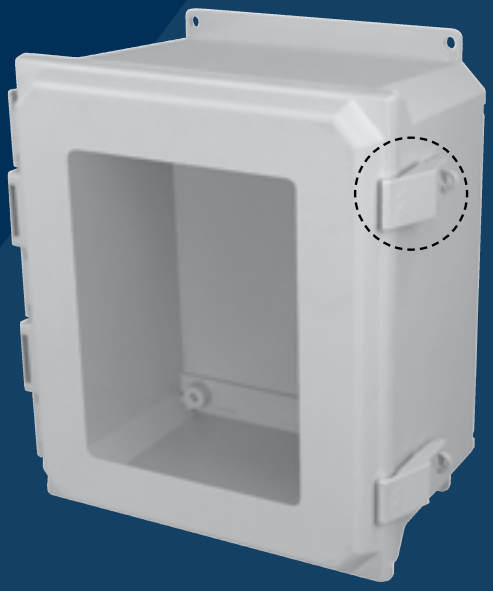
AMU Series

JIC SIZE JUNCTION BOXES



Cover Type

Solid/Opaque

Closure Type

Twist Latch Hinged Cover

Application

Designed to insulate and protect controls and components in both indoor and outdoor applications often found in oil refineries, waste water treatment equipment, chemical plants, and many other applications

- Especially well suited for high temperature or corrosive environments
- Protects from dirt, dust, oil and water
- For use with industrial control equipment

Standards

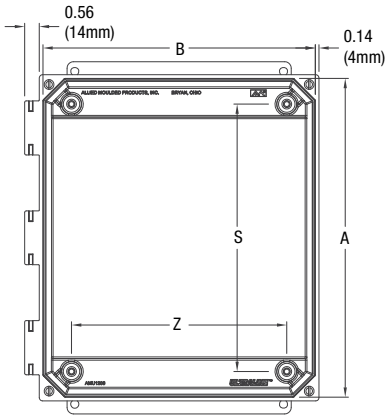
- UL 50 and UL 50E Types 1, 2, 3, 3R, 4, 4X, 12 and 13
- Complies with:
  - NEMA Types 1, 2, 3, 3R, 4, 4X, 12 and 13
  - IEC 60529 Type IP66
  - RoHS directive

Construction

- Molded fiberglass reinforced polyester construction with flush, solid/opaque cover
- Allied Moulded ULTRAGUARD® fiberglass reinforced polyester material formulation - UV stabilized for outdoor use
- Opaque cover, base, feet, flanges — Light gray color (RAL 7035)
  Note: foot models mounting hardware supplied in a bag. Flanged models are pre-assembled
- 316 stainless steel hinge pin and twist latches with padlock hasp (.375" dia.)
- Formed-In-Place (FIP) polyurethane gasket system encased in continuous channel
- Polycarbonate foot/flange mounting brackets with 316 stainless steel fasteners
- #10-32 threaded brass inserts are installed for back panel mounting

Accessories & Modifications

- Custom holes and cutouts
- Custom size polycarbonate viewing windows
- Molded-in color matching
- EMI/RFI shielding
- Factory-supplied custom printing



Note: Cover Removed for Clarity

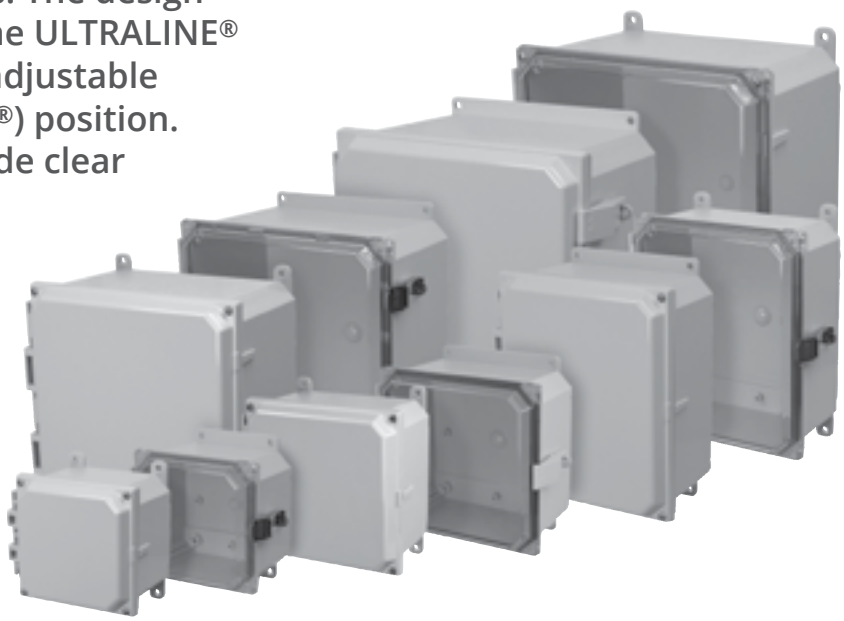
POLYLINE® SERIES

POLYCARBONATE

POLYLINE®

U.S. Pat. No. 7,572,975

The AMP polycarbonate series was developed primarily for general purpose industrial applications as an alternative to steel enclosures. The design of this product group is similar to the ULTRALINE® series and includes a provision for adjustable HFPP (hinged front panel POLYLINE®) position. Additional POLYLINE® options include clear covers, nonmetallic snap latches, and patented multi-mounting capabilities. Available sizes include 6" x 6" x 4" (152mm x 152mm x 102mm) up through 20" x 16" x 10" (508mm x 406mm x 254mm).



Scan to learn more

Allied Moulded Products, Inc. | 222 N. Union Street Bryan, OH 43506

AMP Series Features & Benefits

- Engineering grade thermoplastic-injection molded polycarbonate
- Cover to base design - flush, aesthetically pleasing and more modern architecture
- Patented (US Pat. No. 7,572,975) multi-mounting capability
  - Out-of-the-box polycarbonate flange design (factory installed)
  - Optional polycarbonate foot mount brackets for multi-directional mounting (vertical or horizontal positioning)
  - 316 stainless steel foot/flange mounting screws
- Solid opaque or clear polycarbonate cover options
- Partial molded hinges, providing a secure cover-to-base closure with no wall penetrations
- Formed-In-Place (FIP) polyurethane gasket system
- Mounting panel inserts for optional back panel
- UV stabilized for outdoor use

AMP Series Specifications

- Non-corrosive
- Non-conductive
- Standard RAL 7035 light gray color
- Temperature-resistant
- Fire-resistant
- Rated NEMA 1, 2, 3, 3R, 4, 4X, 12 and 13
- UL® listed
- Compliant with RoHS directive

Accessories

- Optional hinged front panels
- ULTRAPLUG® hole plugs
- Pole mount kits
- HMI cover kits
- Inspection windows

Modifications

We are pleased to modify any of our standard products to fit your needs with:

- Custom holes and cutouts
- EMI/RFI shielding
- Factory-supplied custom printing

For complete details on factory modifications including a modification request form, see pages 1-3.

AMP Series

JIC SIZE JUNCTION BOXES

Cover Type

Solid/Opaque

Closure Type

Lift-Off Screw Cover

Application

Designed to insulate and protect controls and components in both indoor and outdoor applications often found in industrial control panels, pump controls/ waste water treatment, irrigation/water control, solar/wind, and chemical plants

- Light weight, impact resistant and good corrosion resistance for many industrial enclosure applications and a great alternative to metallic enclosures
- Protects from dirt, dust, and water

Standards

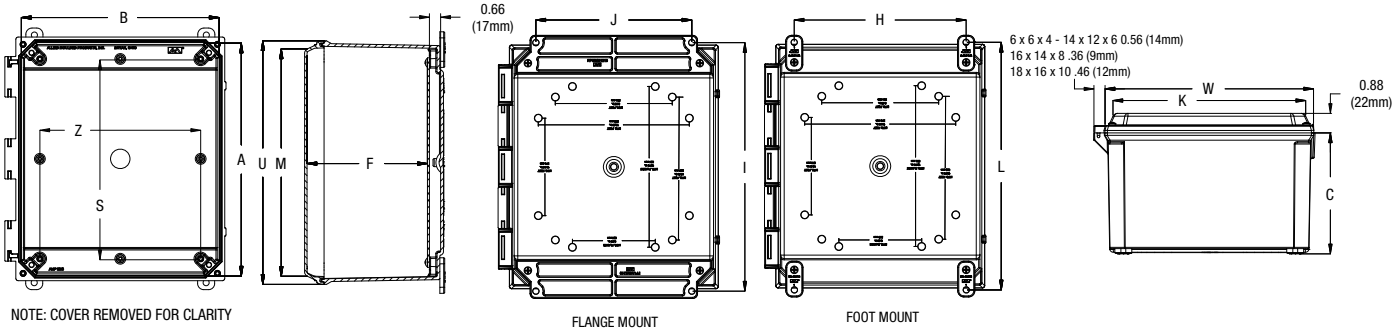
- UL 50 and UL 50E Types 1, 2, 3, 3R, 4, 4X, (6P for sizes 6"x6" up through 14"x12"), 12 and 13
- Complies with:
  - NEMA Types 1, 2, 3, 3R, 4, 4X, (6P for sizes 6"x6" up through 14"x12"), 12 and 13
  - IEC 60529 Type IP68 submersible up to 24 hours at a depth of 6 feet (1.8 meters)
  - RoHS directive

Construction

- Injection molded polycarbonate thermoplastic construction with flush, solid/opaque cover
- Opaque cover, base, feet, flanges — Light gray color (RAL 7035)
  Note: foot models mounting hardware supplied in a bag. Flanged models are pre-assembled
- 316 stainless steel captive cover screws
- Formed-In-Place (FIP) polyurethane gasket system encased in continuous channel
- 316 stainless steel foot/flange mounting hardware
- Polycarbonate hinge clips (16" & 18" sizes)
- Molded-in hinge bosses removed for 6"x6", 8"x6", and 8"x8" enclosure sizes
- #10-32 threaded brass inserts are installed for back panel mounting

Accessories & Modifications

- Custom holes and cutouts
- Optional foot/flange mounting hardware
- DIN rail mounting available with molded-in bosses using #10 sheet metal screws
- Factory-supplied custom printing



NOTE: COVER REMOVED FOR CLARITY

AMP Series

JIC SIZE JUNCTION BOXES

Cover Type

Clear Polycarbonate

Closure Type

Lift-Off Screw Cover

Application

Designed to insulate and protect controls and components in both indoor and outdoor applications often found in industrial control panels, pump controls/ waste water treatment, irrigation/water control, solar/wind, and chemical plants

- Light weight, impact resistant and good corrosion resistance for many industrial enclosure applications and a great alternative to metallic enclosures
- Protects from dirt, dust, and water
- Clear polycarbonate instrumentation cover, used in applications where critical electronic equipment must be visible and protected from the elements

Standards

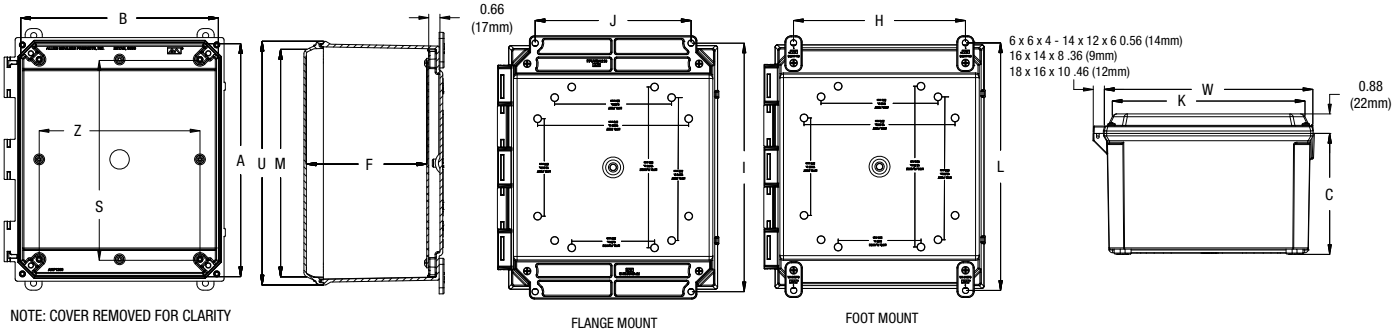
- UL 50 and UL 50E Types 1, 2, 3, 3R, 4, 4X, (6P for sizes 6"x6" up through 14"x12"), 12 and 13
- Complies with:
  - NEMA Types 1, 2, 3, 3R, 4, 4X, (6P for sizes 6"x6" up through 14"x12"), 12 and 13
  - IEC 60529 Type IP68 submersible up to 24 hours at a depth of 6 feet (1.8 meters)
  - RoHS directive

Construction

- Injection molded polycarbonate thermoplastic construction with flush, clear polycarbonate cover
- Enclosure base, feet, flanges — Light gray color (RAL 7035)
  Note: foot models mounting hardware supplied in a bag. Flanged models are pre-assembled
- 316 stainless steel captive cover screws
- Formed-In-Place (FIP) polyurethane gasket system encased in continuous channel
- 316 stainless steel foot/flange mounting hardware
- Polycarbonate hinge clips (16" & 18" sizes)
- Molded-in hinge bosses removed for 6"x6", 8"x6", and 8"x8" enclosure sizes
- #10-32 threaded brass inserts are installed for back panel mounting

Accessories & Modifications

- Custom holes and cutouts
- Optional foot/flange mounting hardware
- DIN rail mounting available with molded-in bosses using #10 sheet metal screws
- Factory-supplied custom printing



NOTE: COVER REMOVED FOR CLARITY

AMP Series

JIC SIZE JUNCTION BOXES

Cover Type

Clear Polycarbonate

Closure Type

Hinged Screw Cover

Application

Designed to insulate and protect controls and components in both indoor and outdoor applications often found in industrial control panels, pump controls/ waste water treatment, irrigation/water control, solar/wind, and chemical plants

- Light weight, impact resistant and good corrosion resistance for many industrial enclosure applications and a great alternative to metallic enclosures
- Protects from dirt, dust, and water
- Clear polycarbonate instrumentation cover, used in applications where critical electronic equipment must be visible and protected from the elements

Standards

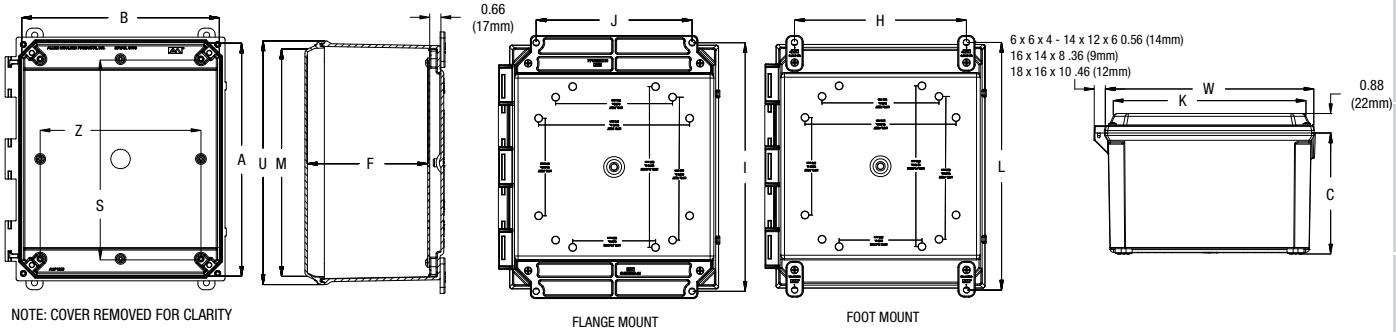
- UL 50 and UL 50E Types 1, 2, 3, 3R, 4, 4X, 12 and 13
- Complies with:
  - NEMA Types 1, 2, 3, 3R, 4, 4X, 12 and 13
  - IEC 60529 Type IP66
  - RoHS directive

Construction

- Injection molded polycarbonate thermoplastic construction with flush, clear polycarbonate cover
- Enclosure base, feet, flanges — Light gray color (RAL 7035)
  Note: foot models mounting hardware supplied in a bag. Flanged models are pre-assembled
- 316 stainless steel captive cover screws
- Formed-In-Place (FIP) polyurethane gasket system encased in continuous channel
- 316 stainless steel foot/flange mounting hardware
- 316 stainless steel hinge pin (6"-14" sizes)
- Polycarbonate hinge clips (16" & 18" sizes)
- #10-32 threaded brass inserts are installed for back panel mounting

Accessories & Modifications

- Custom holes and cutouts
- Optional foot/flange mounting hardware
- DIN rail mounting available with molded-in bosses using #10 sheet metal screws
- Factory-supplied custom printing



NOTE: COVER REMOVED FOR CLARITY

JIC SIZE JUNCTION BOXES

Cover Type

Solid/Opaque

Closure Type

Nonmetal Snap Latch
Hinged Cover

Application

Designed to insulate and protect controls and components in both indoor and outdoor applications often found in industrial control panels, pump controls/ waste water treatment, irrigation/water control, solar/wind, and chemical plants

- Light weight, impact resistant and good corrosion resistance for many industrial enclosure applications and a great alternative to metallic enclosures
- Protects from dirt, dust, and water

Standards

- UL 50 and UL 50E Types 1, 2, 3, 3R, 4, 4X, 12 and 13
- Complies with:
  - NEMA Types 1, 2, 3, 3R, 4, 4X, 12 and 13
  - IEC 60529 Type IP66
  - RoHS directive

Construction

- Injection molded polycarbonate thermoplastic construction with flush, solid/opaque cover
- Opaque cover, base, snap latches, feet, flanges — Light gray color (RAL 7035)
  Note: foot models mounting hardware supplied in a bag. Flanged models are pre-assembled
- Polycarbonate snap latches feature padlock hasp (.281" dia.)—(AMP1082 not available)
- Formed-In-Place (FIP) polyurethane gasket system encased in continuous channel
- 316 stainless steel foot/flange mounting hardware
- 316 stainless steel hinge pin (6"-14" sizes)
- Polycarbonate hinge clips (16" & 18" sizes)
- #10-32 threaded brass inserts are installed for back panel mounting

Accessories & Modifications

- Custom holes and cutouts
- Optional foot/flange mounting hardware
- DIN rail mounting available with molded-in bosses using #10 sheet metal screws
- Factory-supplied custom printing

RoHS COMPLIANT c UL us CE

AMP Series

JIC SIZE JUNCTION BOXES

Cover Type

Clear Polycarbonate

Closure Type

Nonmetal Snap Latch
Hinged Cover

Application

Designed to insulate and protect controls and components in both indoor and outdoor applications often found in industrial control panels, pump controls/ waste water treatment, irrigation/water control, solar/wind, and chemical plants

- Light weight, impact resistant and good corrosion resistance for many industrial enclosure applications and a great alternative to metallic enclosures
- Protects from dirt, dust, and water
- Clear polycarbonate instrumentation cover, used in applications where critical electronic equipment must be visible and protected from the elements

Standards

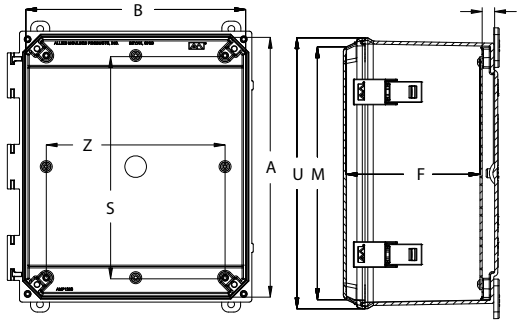
- UL 50 and UL 50E Types 1, 2, 3, 3R, 4, 4X, 12 and 13
- Complies with:
  - NEMA Types 1, 2, 3, 3R, 4, 4X, 12 and 13
  - IEC 60529 Type IP66
  - RoHS directive

Construction

- Injection molded polycarbonate thermoplastic construction with flush, clear polycarbonate cover
- Enclosure base, feet, flanges — Light gray color (RAL 7035)
  Note: foot models mounting hardware supplied in a bag. Flanged models are pre-assembled
- Polycarbonate snap latches feature padlock hasp (.281" dia.)—(AMP1082 not available)
- Formed-In-Place (FIP) polyurethane gasket system encased in continuous channel
- 316 stainless steel foot/flange mounting hardware
- 316 stainless steel hinge pin (6"-14" sizes)
- Polycarbonate hinge clips (16" & 18" sizes)
- #10-32 threaded brass inserts are installed for back panel mounting

Accessories & Modifications

- Custom holes and cutouts
- Optional foot/flange mounting hardware
- DIN rail mounting available with molded-in bosses using #10 sheet metal screws
- Factory-supplied custom printing



NOTE: COVER REMOVED FOR CLARITY

AMP Series

JIC SIZE JUNCTION BOXES

Cover Type

Clear Polycarbonate

Closure Type

Snap Latch Hinged Cover

Application

Designed to insulate and protect controls and components in both indoor and outdoor applications often found in industrial control panels, pump controls/ waste water treatment, irrigation/water control, solar/wind, and chemical plants

- Light weight, impact resistant and good corrosion resistance for many industrial enclosure applications and a great alternative to metallic enclosures
- Protects from dirt, dust, and water
- Clear polycarbonate instrumentation cover, used in applications where critical electronic equipment must be visible and protected from the elements

Standards

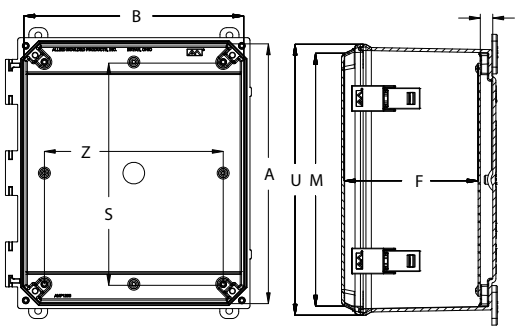
- UL 50 and UL 50E Types 1, 2, 3, 3R, 4, 4X, 12 and 13
- Complies with:
  - NEMA Types 1, 2, 3, 3R, 4, 4X, 12 and 13
  - IEC 60529 Type IP66
  - RoHS directive

Construction

- Injection molded polycarbonate thermoplastic construction with flush, clear polycarbonate cover
- Enclosure base, feet, flanges — Light gray color (RAL 7035)
  Note: foot models mounting hardware supplied in a bag. Flanged models are pre-assembled
- 316 stainless steel snap latches feature padlock hasp (.375" dia.)—(AMP1082 .354" dia.)
- Formed-In-Place (FIP) polyurethane gasket system encased in continuous channel
- 316 stainless steel foot/flange mounting hardware
- 316 stainless steel hinge pin (6"-14" sizes)
- Polycarbonate hinge clips (16" & 18" sizes)
- #10-32 threaded brass inserts are installed for back panel mounting

Accessories & Modifications

- Custom holes and cutouts
- Optional foot/flange mounting hardware
- DIN rail mounting available with molded-in bosses using #10 sheet metal screws
- Factory-supplied custom printing



NOTE: COVER REMOVED FOR CLARITY

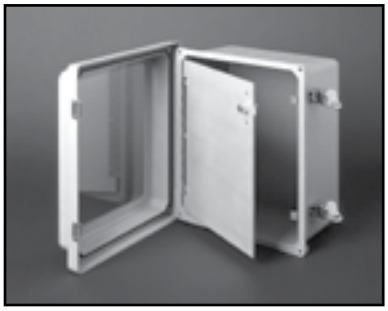
AM-R Series: Aluminum Hinged Front Panels

HFP – Used with raised cover only

FEATURES:

- Panels designed to offer both a professional instrumentation display and a protective covering for electric wiring inside the enclosure
- Completely field-installable panel design with no required enclosure modifications
- Latch design secures panel in place with one-quarter turn
- One-half-inch adjustability up or down
- For use with raised cover enclosures from 6" x 6" through 30" x 24"
- Panel modifications available include: cut-in holes and screen printing
- Compliant with RoHS directive

AM-R Control Series	
Part No.	**Panel Dim. (H x W x D)**
HFP2420	23.25 x 19.375 x .09
	591mm x 492mm x 2.3mm
HFP2424	23.38 x 23.25 x .09
	594mm x 591mm x 2.3mm
HFP3024	29.25 x 23.38 x .09
	743mm x 594mm x 2.3mm
HFP4032	37.00 x 28.50 x .09
	940mm x 724mm x 2.3mm



Note: Please refer to website www.alliedmoulded.com for installed HFP drawings and dimensional information.

AM-R JIC Series

*Standard HFP186 doesn't fit in AMHD product.

AMU Series: Aluminum Hinged Front Panels

HFPU

FEATURES:

- Panels designed to offer both a professional instrumentation display and a safety divider for electric wiring inside the enclosure
- Completely field-installable panel design. Installation instruction sheet included.
- Latch design secures panel in place with one-quarter turn
- For use with enclosures from 6" x 6" through 20" x 16"
- Panel modifications available include: cut-in holes and screen printing
- Compliant with RoHS directive

Note: Please refer to website www.alliedmoulded.com for installed HFPU drawings and dimensional information.

Inspection Windows

INSPECTION WINDOW KIT

Allied Moulded's new inspection window kits are designed to provide visibility and easy viewing access to equipment and components installed in an enclosure, while maintaining ratings up through NEMA Type 4X. The window kit features a strong and rigid design, securely mounting to the outside of most enclosure designs. The window kit is available in three convenient sizes to allow for sufficient viewing space in any required application.

BASE P/N AMHMI

Application

Ideal for providing a convenient viewable area not accessible to equipment and components installed inside an enclosure

- Especially well suited for high temperature or corrosive environments
- Includes mounting hole pattern for easy window installation
- Protects from UV, dirt, dust, oil, and water

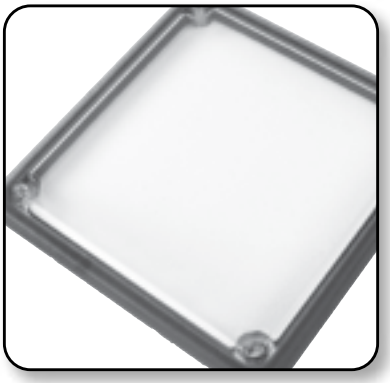
Standards

- Recognized component for use with enclosures rated NEMA Types 1, 3, 3R, 4, 4X, 12 or 13

Construction

- Clear polycarbonate thermoplastic
- UV stabilized for outdoor use
- Formed-In-Place (FIP) polyurethane gasket encased in continuous channel
- Designed for use with wall thicknesses from 16 gauge through 1/4"
- #10-32 threaded brass inserts with plated steel mounting fasteners
- Convenient sizes for easy viewing access to a variety of enclosure applications

Formed-In-Place (FIP) Gasket



Aesthetically Pleasing Design

Threaded Brass Inserts

HMI Cover Kits

HUMAN MACHINE INTERFACE

Allied Moulded's new HMI cover kits are designed to provide protection for instruments or electronics requiring routine attention or detail. The cover kit features a strong and rigid design, mounting securely to the outside of any enclosure option, and makes accessibility to electronic components easy!

HMI cover kits are UL® recognized and maintain a NEMA 4X seal with the use of our Formed-In-Place (FIP) polyurethane gasket system, and is well suited for outdoor applications. Multiple cover latching options are also available, including a hinge screw, tamper proof screw, and snap latch model. All are available in solid opaque or polycarbonate thermoplastic clear covers.

BASE P/N AMHMI

Application

Ideal for covering and protecting instruments or electronics through an enclosure wall, while maintaining all applicable standards and classifications

- No need to open the enclosure to view electronics or perform maintenance, decreasing arc flash risks and safety hazards
- Includes mounting hole pattern for easy cover kit installation
- Protects from UV, dirt, dust, oil, and water

Standards

- Recognized component for use with enclosures rated NEMA Types 1, 3, 3R, 4, 4X, 12 or 13

Construction

- Clear polycarbonate thermoplastic, or polycarbonate for opaque covers
- 316 stainless steel external cover latching hardware and hinge pin
- 316 stainless steel snap latches feature padlock hasp (.354" dia.)
- UV stabilized for outdoor use
- Formed-In-Place (FIP) polyurethane gasket in continuous channel
- Designed for use with wall thicknesses from 16 gauge through 1/4"
- #10-32 threaded brass inserts with plated steel mounting fasteners

Hole Plug Assemblies

ULTRAPLUG® HOLE PLUGS

- Plug "Fins": self centering, anti-rotational design for fast & easy one person plug assembly and no-tools tightening
- Plug fits wide range of hole sizes without the use of restrictive hole centering spacers
- Patented design: US Patent No. 9,045,932
- Recognized component for use with UL listed enclosure products
- Molded material of construction for a wide range of chemical compatible applications (polycarbonate with neoprene/EPDM gasket)
- Assembly designed to maintain applicable NEMA/UL enclosure ratings Note: For use on flat surfaces of a Type 1, 3R, 4, 4X or 12 enclosure
- Designed for use with wall thicknesses from 16 gauge through 1/4"
- Designed for use with all metallic and nonmetallic enclosure materials
- Low profile interior nut and exterior plug saves valuable panel space
- Capable of sealing unused holes ranging in size from 1/2" to 4-3/4"

Simple Install

1) Push/Plug
2) Twist-lock/Fins
3) Screw-tight/Nut

Polycarbonate (PC) can be used as a substitute for carbon steel plug applications plus many stainless steel and other nonmetallic plug applications. Please check industry standard corrosion guides for additional application assistance.

Pole Mount Kits

ENCLOSURE POLE MOUNT

Allied Moulded's Pole Mount Kit offers the ability to mount enclosures including sizes 6" x 6" x 4" through 60" x 36" x 16" to any wood, plastic, or steel pole securely without excessive materials and labor.

Manufactured with the electrical contractor in mind, Allied Moulded's Pole Mount Kit provides an easy solution for all enclosures. Not only is it designed for round poles, but the pole mount kits have the capability to mount enclosures to square and rectangular pole shapes as well.

Application

- Nine sizes covering AM JIC, AMU JIC, AMP, and Control Series enclosures
- Steel band design allows for adjustable mounting capability on pole sizes up through 15 inches in diameter
- Allied Moulded pole mount kits have the capability to mount enclosures to round, square, and rectangular pole shapes
- Fewer parts are used so minimal assembly is required for installation
- Pole mount kits offer corrosion protection for outdoor use

Construction

- Pole mount flange: galvannealed steel; 14 gauge (.075")
- Pole mount band clamps: 316 stainless steel (48")
- Flange fasteners (screws, washers, and lock nuts): 316 stainless steel (#10-32)

2 Enclosure flange is bolted through and attached to the pole mount bracket on these enclosures.

Enclosure Keylock Kits

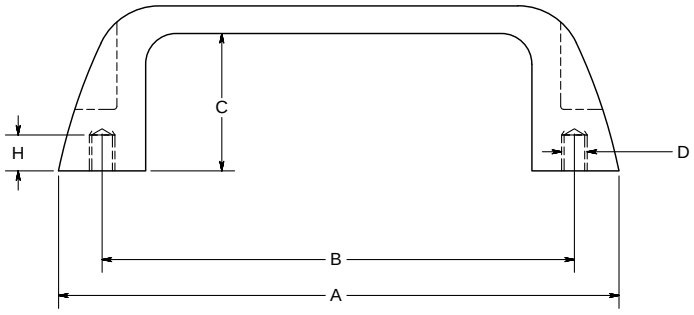
PART NO.: AMKEYLOCKFC, AMKEYLOCKRC, and AMKEYLOCKRCHFP

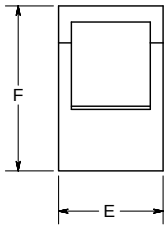
- AMKEYLOCKFC keylock assembly kit for (F)flat (C)cover enclosures 6x6 through 20x16 (AM Series)
- AMKEYLOCLKRC keylock assembly kit for (R)raised (C)cover enclosures 6x6 through 30x24 (AM-R Series)
- AMKEYLOCKRCHFP keylock assembly kit for (R)raised (C)cover enclosures with a (H)hinge (F)front (P)panel installed in enclosures 10x8 through 30x24 (AM-R Series)
- Kits include: Two keys, keylock assembly, cam, dust cover, lock bracket, and hardware
- Field installable while requiring only a round hole to be cut into the cover
- Keylocks are sold with a self locking nut for tight and secure assembly
- Just a 1/4 turn rotation is required to lock the enclosure cover
- Installed keylock assemblies have been tested and pass the NEMA 4X watertight test
- Manufactured components are RoHS compliant (Restriction of Hazardous Substances)

Pull Type Handle

PART NO.: AMHDL001

- Handle: Glass fiber reinforced nylon
- Finish: Black matte
- Screws and lock washers included





Part No.	A	B	C	D	E	F	H
AMHDL001	5.47	4.61	1.34	1/4 - 20	1.02	1.61	0.35
	139mm	117mm	34mm	---	26mm	41mm	9mm

Enclosure Print Pocket

PART NO.: AMPRINTPOCKET

- Easy to install in the field
- Store prints or other important documents inside the enclosure
- Gray polystyrene print pocket for large JIC Series, Control Series, and Empire Series enclosures
- Two-sided adhesive tape pre-applied to print pocket
- Size: 9.375 in (H) x 10.375 in (W) x 1.045 in (D)
  238 mm (H) x 264 mm (W) x 27 mm (D)

Enclosure Ventilation Kit

PART NO.: AMVENTSM, AMVENTLG & AMVENT4XLG

- Gray polyamide material (4X vent kit made from polycarbonate)
- Use with JIC Series enclosures - install two per enclosure
- Installation instruction sheet included
- Seal included in kit to ensure raintight enclosure protection (4X - FIP gasket)
- Two vents per kit for field installation allows for sufficient air circulation and prevents condensation and moisture
- 4X vent kit maintains enclosures NEMA 4X rating with the use of innovative vent baffles, allowing air flow while reducing condensation and heat within the enclosure

Overall Dimensions:
AMVENTSM; 1 in (25 mm) x 1.125 in (29 mm) and requires .75 in (19mm) through hole
AMVENTLG; 2 in (51 mm) x 2.675 in (68 mm) and requires 1.156 in (29 mm) through hole
AMVENT4XLG; 4 in (106mm) x 3 in (75mm) and requires 1 in (25mm) through hole

Enclosure Filter Kit

PART NO.: AMPFA1000, AMPFA2000, and AMPFA3000

- Three sizes covering large JIC Series, Control Series, and Empire Series enclosures
- Nonmetallic made from strong ABS-FR, self-extinguishing material (UL 94 VO)
- Snap-in design allows for hardware-free installation
- Gaskets included provide a NEMA 12 seal against the enclosure
- Filter cover comes standard in light gray RAL 7035 color
- Installation instruction sheet included
- Replaceable filter material provides for 73% filtration efficiency
- Filter density is standard 150 (g/m2)

Size Information:

- AMPFA1000; 4.133 in (105mm) x 4.133 in (105mm) x 0.39 in (10mm)
- AMPFA2000; 5.905 in (150mm) x 5.905 in (150mm) x 1.06 in (27mm)
- AMPFA3000; 9.842 in (250mm) x 9.842 in (250mm) x 1.18 in (30mm)

Note: There are other thermal management accessories available upon request. These include: Fans, replacement filters, heaters, air-conditioners, and thermostats. Please contact factory for more information.

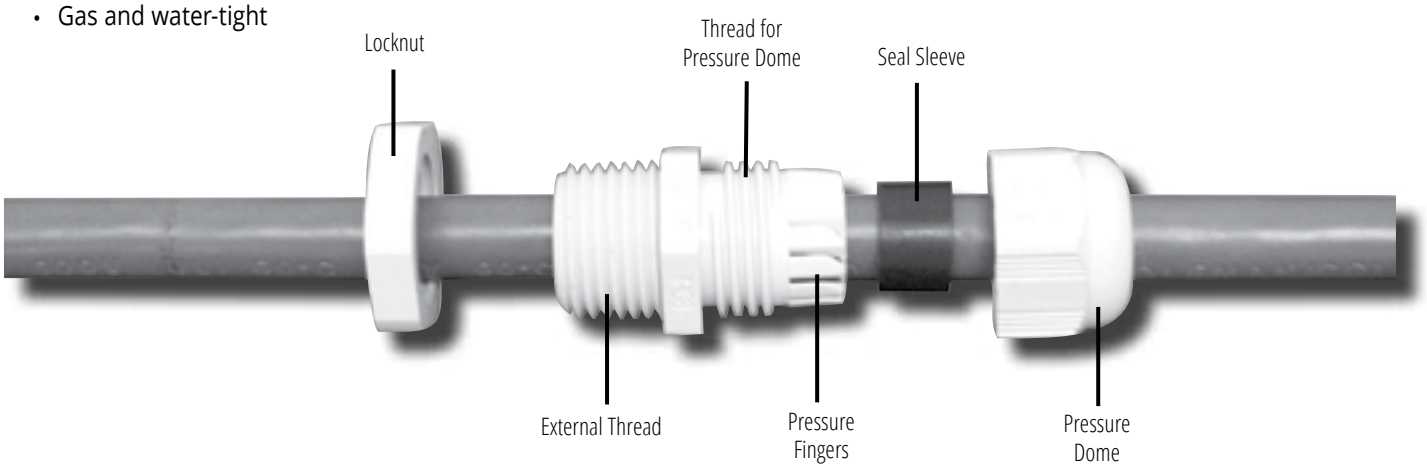
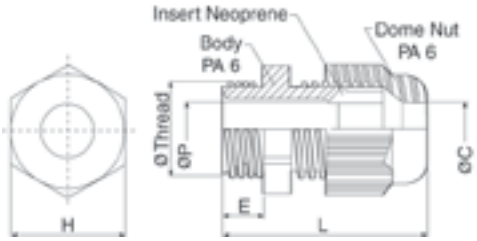
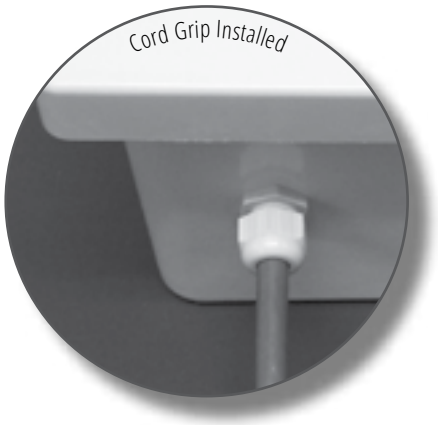
- Maximum strain relief through clamping range
- IP68 achieved without seal rings
- Trapezoidal thread with high torque guarantees tight and permanent fit of the dome nut
- Gas and water-tight
- UL listed
- Temp range: PA 6 -40°C to 100°C (-40°F to 212°F)
  Neoprene -25°C to 100°C (-13 to 212°F)
- Recommended enclosure hole size for external thread: NPT 1/2" 21.8mm (.8594 in); NPT 3/4" 27.4mm (1.0781 in); NPT 1" 34.1mm (1.3438 in)



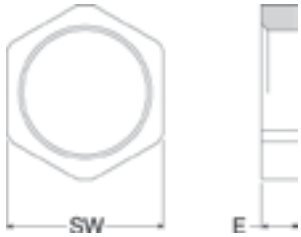
Cord Grip Dimensions





Thread Size	Part Number	Clamping Range (mm)	Package Quantity	H (mm)	E (mm)	L (mm)	Dia. C (mm)	Dia. P (mm)	Dia. NPT/M (mm)
NPT ½"	5308901	5 to 12	50	24	14	44	12.5	12.5	21.2
NPT ¾"	5308902	9 to 18	50	33	15	54	18.5	18.5	26.7
NPT 1"	5308903	14 to 25	50	42	18	60	25.5	25.5	33.3

LOCK NUT DIMENSIONS				
Thread Size	Part Number	Package Quantity	Thickness E (mm)	SW (mm)
NPT ½"	7211486-50	50	6	27
NPT ¾"	7211487	20	7	36
NPT 1"	7211488	20	7	41



ACCESSORY KITS

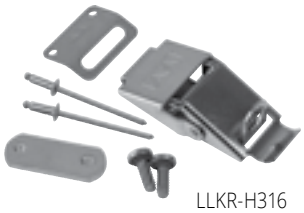
LATCH HARDWARE KITS

- Used with AM, AM-R, AMP, and AMU Series enclosures, and HMI cover kits
- Feature a multitude of snap and twist latch mechanisms
- Available for both flat and raised cover enclosures
- Nonmetallic latches match standard RAL 7035 color

LLRS-H

LLPN-H

Size Range	Used With	Kit Description	Part #
6x6 thru 20x16	AM Series	316 stainless steel snap latch with keeper and hardware kit (rivot)	LLK-H316
6x6 thru 20x16	AM Series	316 stainless steel twist latch with keeper and hardware kit (rivot)	LTK-H316
6x6 thru 30x24	AM-R Series	316 stainless steel snap latch kit for raised cover (rivot, screw)	LLKR-H316
6x6 thru 30x24	AM-R Series	316 twist latch for raised cover with keeper and hardware kit (rivot, screw)	LTKR-H316
10x8x2	AMP Series	316 stainless steel reverse snap latch kit (slip-on)	LLRS-H
8x8 thru 20x16	HMI Series	316 stainless steel reverse snap latch kit (slip-on)	LLRS-H
6x6 thru 20x16	AMP / AMU Series	Polycarbonate snap latch kit (slip-on)	LLPN-H
6x6 thru 20x16	AMP / AMU Series	316 stainless steel snap latch kit (slip-on)	LLPS-H
6x6 thru 20x16	AMP / AMU Series	316 stainless steel twist latch kit (slip-on)	LTPS-H



LLKR-H316

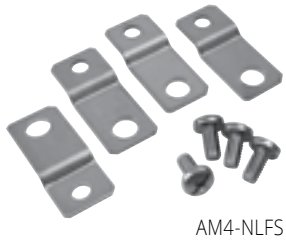
MOUNTING FOOT / BRACKET KITS

- Used with small junction boxes, AM, AM-R, Control Series, AMU, and AMP series enclosures
- 4 screws and 4 feet per pack
- Nonmetallic feet match standard RAL 7035 color

Size Range	Used With	Kit Description	Part #
AM743 and AM943	AM743 and AM943	316 stainless steel foot kit with 4 screws, 4 washers, and 4 screws	AM4-PFSN
6x6 thru 20x16	AM / AM-R	316 stainless steel foot kit with 4 screws and 4 feet	AM4-NFS
24x20 thru 30x24	Control Series	316 stainless steel foot kit with 4 screws and 4 feet	AM4-NLFS
6x6 thru 14x12	AMU / AMP	Polycarbonate foot kit with 4 screws and 4 feet	AM4-NUFS
16x14 thru 20x10	AMU / AMP	Polycarbonate foot kit with 4 screws and 4 feet	AM4-NULFS
42"	Control XL	Fiberglass (FRP) foot kit with 4 screws and 4 feet	AM4-NXLFS

AM4-NUFS



AM4-NLFS

PANEL SCREW KITS / NONMETALLIC HINGE CLIPS

- Used with all enclosure options featuring back panel options
- Four (4) plated carbon steel screws with universal panheads
- POLYLINE® nonmetallic hinge clips available in 2-pack, and are field installable

Size Range	Used With	Kit Description	Part #
6x6 thru 20x16	JIC	Plated carbon steel back panel screw kit (#10-32)	AM4-NPS
24x20 thru 30x24	Control	Plated carbon steel back panel 4 screw kit (3/8-16)	AM4-NLPS
24x20 thru 30x24	Control	Plated carbon steel back panel 6 screw kit (3/8-16)	AM6-NLPS
16" thru 18"	Polyline®	Polycarbonate hinge clip kit (2 pack)	AMPHINGECLIP

ALLIED MOULDED PRODUCTS, Inc.

YOUR TRUSTED SOURCE
NONMETALLIC ENCLOSURES & ACCESSORIES

Share Your Success

We are looking to feature your successes in our customer success stories program, wall calendar, social media, and future Industrial Catalogs. If you have a picture of an Allied Moulded Enclosure being installed, already installed, or in a unique location please send it to **marketing@alliedmoulded.com** with a few details about the project. You can also share your photos with us on any social media platform using **#alliedmoulded**

Secure Enclosure for Fiber Optic Installer

Allied Moulded Success Story

©2018 Allied Moulded Products, Inc.

Your Trusted Source

Allied Moulded Products, Inc. manufactures a complete line of corrosion and UV resistant NEMA Type 4X nonmetallic (fiberglass and polycarbonate) enclosures for indoor or outdoor industrial applications. The fiberglass reinforced polyester enclosures are manufactured with ULTRAGUARD®, a proprietary material formulation offering all the advantages of nonmetallic materials including: UL® listed, RoHS compliance, increased strength, reduced weight, corrosion resistance, non-conductivity, UV resistance and ease of installation. The polycarbonate enclosures are injection-molded with polycarbonate thermoplastic, offering many of the same great features as the fiberglass enclosures, with the option of a clear cover.

Allied Moulded Brand Names: POLYLINE®, ULTRALINE®, ULTRAGUARD®, ULTRAPLUG®

Enclosure Ratings: NEMA 4X, 6P, IP66, and IP68

Enclosure Series:

Pushbutton & JIC Sizes — AM, AMHD-R, AMP, AM-R, AMU
Cabinets & Freestanding Units — Control, Control XL & Empire

ALLIED MOULDED PRODUCTS INC. ISO 9001:2015 CERTIFIED
